BACKS THE MAYOR

Editor, Daily News:

With your kind permission, I desire to offer to his worship the Mayor of this city thanks for his timely interposition on behalf of the citizens of Prince Rupert in his statement of yesterday in your columns pointing out the erroneous statements in two different items of finance of this city contained in the report of the Ratepayers' Association recently published. This action of His Worship in defence of the citizens of this city is, to say the least, a most commendable affair indeed. Was such misrepresentation of fact intended or not? If not intended, then it must be written down to either ignorance of facts or inability to understand at the time and in such connection what is fact.

Further the most important feature of the whole attempt made by the ratepayers, or those involved in the action undertaken, is the attempt to hush the voice of the people of this city by making possible the institution of a dictatory management of this city's affairs and at the behest of who, may we ask? The bank, it is alleged, has intimated its desire already for the institution of a council to govern matters in accord with its choice or liking and that choice, we are certainly prepared to assume, involves the elimination of the voice of labor, the first move towards inauguration of a dictatory government of this city's affairs and the elimination of democracy in matters

What devastating illusion is the Ratepayers' Association laboring under? Less levy of taxation instead of drastic increase, maintainence of living wage and instead decrease of wages for the worker, and non-interference with relief instead of interference with, and entailed aggravation of the present sufferings of the unemployed, with possible dangerous results that cannot for one moment be recognized by any sane mind under the present circumstances.

And this is not all that may result from a dictatory regime. If permitted, we then admit that we are not capable of transacting our own business as a people. We walk out of the house and call in the alien to our domestic affairs to set our house in order instead of doing this ourselves. The policy in all matters affected in my opinion is a leap in the dark, a jumping out of the frying pan into the fire, since we are too indifferent to see that two heads are better than one even if, as Spurgeon says, "A dog and a woman in the cart." Be warned of the entailed reduction of the pittance of the toiler, the extreme increase of taxation and possible fatal interference with the relief of the unemployed, for all this is involved in the choice of a dictator. The finances of this city to date, I have been informed by experts, is in no way beyond redemption on a basis of democratic government and there is no reason in consequence for the drastic attempt being made of hushing the people's voice in the matter, or for the adoption of retrogressive methods so attempted.
