

# Some Day you will own a Victrola

When that day comes, you will realize why there is no other instrument which brings so much pleasure to so many people at so little cost.

Victrolas are manufactured complete in one factory, the largest plant in the world devoted to the manufacture of a musical instrument.

The Victrola represents more than twenty years successful research and experience.

The New Console Model as here illustrated—at from \$135.00 upwards—is one of the finest achievements of the 20th century. Write or ask for a complete catalogue describing in detail the entire line. Also sold on easy payments.

## JOLLY DANCE LAST NIGHT AT INLANDER

Popular Boarding House Was En Fete When Guests Were Entertained

One of the jolliest dances given here for some time past was held last night at the Inlander, Second Avenue, when the young people of that popular institution entertained their friends, the occasion being the departure of one of their members, Frank Montgomery, of the Forestry department, who is leaving at the end of the month for his home at Smithers. "Monty," as he is generally called, is very popular at the Inlander where his musical activities are much appreciated. He is severing his connection with the Forestry department.

Dancing commenced sharp at nine to the strains of the Inlander orchestra consisting of F. Montgomery, piano; Harry Wolford, violin; and Clarence Woodruff, traps and drums, and continued until two o'clock. Supper was laid in the dining room, the boys of the institution acting as hosts. Harry Wolford was master of ceremonies, assisted by Jimmie Farguhar. E. P. Jenner mixed the punch, while Miss Isabel McLeod acted as hostess.

Those present were: Mr. and Mrs. Steve King, Mr. and Mrs. Dave Bone, Mr. and Mrs. Doug Wallace, Misses McKinnon, Stephens, Ryan, May, Pringle, Scott, Keup, Ludgate, Cameron, Nickerson, Louden, Donaldson, Minus, Barrow, Macleod, Weller, Palmer and Caldwell and Messrs. Neilson, Wolford, Shephard, Pullen, Forsythe, Montgomery, Jenner, Lamb, Farguhar, Caldwell, Hamilton, Wrigglesworth, Fulmer, Battersby, Garrett, Bonding, Blake, Press, Coles, Woodruff and Mitchell.

## PROVINCE GETS SOME PUBLICITY IN LONDON

"Business Organization," a monthly magazine published in London, England, has an article "An Experiment in Economic Administration" by Anthony Glue which deals with the department of industries of the British Columbia government. It tells of some of the results of the experiment and also mentions some of the needs of the province in the way of new industries. He deals with the basic industries and speaks of the water powers.

While the references to ship-building are not perhaps very fortunate and might easily be misleading, the article tends to draw attention to British Columbia and her resources, which is a good thing at a time when we are looking for industrial expansion.

## GASSED OVERSEAS SHELL SHOCKED and RHEUMATISM

Mr. F. M. Blaquiere, Morinville, Alta., writes:—"After three years service overseas I returned to Canada almost a complete wreck. I had been gassed, and was suffering from shell shock and rheumatism, and was so nervous I could not sleep at night. I tried many medicines and doctors, but none of them did me any good for any length of time. I got so bad, in the Fall of 1919, my hands were so shaky I could scarcely hold anything, and it seemed as if I had a steel hand pressing on my head. The least excitement would almost drive me into fits, and my whole system seemed to be in disorder. I had cramps in my legs nearly every night, and hot and cold chills running up and down my back nearly all the time. One day I decided to try Milburn's Heart and Nerve Pills, and after I had taken six boxes I began to feel better. I kept on using them and after a while I was completely relieved."
