BIRCH FACTORY IS PLANNED AT ANCHORAGE

Scheme to Make Furniture at Alaskan Point Instead of Shipping Logs

ANCHORAGE, Alaska, Nov. 29.—Alaska used to buy all its manufactured articles in the United States, depending for commercial existence solely on its ores and placer gold, fisheries and furs, which found a ready export market. But now the vast territory is turning its attention to industrial enterprises, with a view of cutting down imports and increasing exports.

The government railroad promises to make Anchorage a commercial center. Among the projects under way here is a birchwood manufacturing plant, where furniture and other staple articles will be turned out. A birch logging mill is planned. There are millions of feet of birch timber adjacent to the railroad and tidewater, and industrialists intend to export finished lumber instead of crude logs.

SLAVE GIRL BUSINESS IS NO LONGER GOOD

San Francisco Tailors Look Elsewhere to Make a Living Since Girls Moved

SAN FRANCISCO, Nov. 29.—In San Francisco's Chinatown the tailors used to thrive by making dainty clothes for Chinese slave girls. But now, the police report, this trade has diminished to the point that the Chinese tailors are appealing to the Y.W.C.A. secretaries to put them in touch with American families wanting clothes.

The reason for this is said to be that most of the slave girls have been sent away by their owners, largely to small towns. The change in policy is attributed to the activities of Christian missionaries and the police in curbing some of the practices of the tong.

AUDITORIUM FORMS PART OF VICTORIA'S AMUSEMENT CENTRE

Vote to be Taken on the Project Before the End of the Year is Proposal

VICTORIA, Nov. 29.—The main part of Victoria's new amusement centre is to be an immense auditorium roofed with glass and with a salt water tank in the centre.

At some distance up from the tank will be a large promenade where dancing may be enjoyed by those not wishing to swim. That is according to the tentative plans drawn by F. M. Raltonbury for the C.P.R.

The present intention is to have the bylaw authorizing the scheme voted on before the end of the year, possibly on December 29.
