FLYING PROMISES TO BE COMMON IN ALASKA

Number of Aviators Planning to Enter Commercial Field in that Territory

KETCHIKAN, Dec. 5. — From present indications it looks like Alaska will have plenty of flying machines next year.

Besides Jean Vanophem of the Jualin mine who recently left for Europe with the expressed determination of returning with two French planes and pilots to put on a service between Seattle and Skagway, with Ketchikan a point of call, another company headed by R. Campbell has announced that it will begin a service of dirigibles, and a young aviator by the name of Harvey, recently in Ketchikan, is said to be figuring on a mail contract for flying machines in Alaska.

The naval flight around the world next year will cross parts of Alaska.

Ketchikan business men and others are very much interested in the announced intentions of the various promoters to establish air route from the outside with the various towns of Alaska. Some believe that the great distances between populated centres will prove the biggest factor in giving flying machines business in the Northland.

While time does not figure so largely as a factor in carrying on the average business in Alaska as it does outside, still there are many emergencies arising where time may prove an essential factor, in which cases the flying machine would prove most useful.

SHOT HER HUSBAND ACCORDING TO PACT

CHICAGO, Dec. 4. — A prenuptial agreement that if either left the other or proved unfaithful the offending party should be punished by death has been revealed by Mrs. Mary Bulavski, 30 years old, who shot and probably fatally wounded her husband, Simon.

"We agreed," the woman told the police, "that if either left the other after we married death would be the punishment. Simon said he was going to leave me. I went to my room and got the pistol and shot him. It was what we had agreed to before we were married."

LARGEST OBSERVATORY BE BUILT IN FRANCE GIFT OF RICH HINDU

GENEVA, Dec. 6.—What will be the largest observatory in the world, with a telescope more powerful than that at Mount Wilson or Victoria, B.C., is to be built on Mount Saleve, located on French territory, a few miles from Geneva.

The observatory will be the gift to France of the Hindu millionaire, engineer and scientist, Assan Dina, and his wife, who was Miss Mary Wallace-Shillito, of Cincinnati. The building, instruments and installation will cost $6,000,000.

The telescope lense will have a diameter of 105 inches, or five inches greater than the Mount Wilson instrument.

HEART WAS SO BAD HAD TO SIT UP IN BED

Mrs. O. E. Fitzgerald, 106 Ross St., St. Thomas, Ont., writes:—"In the Fall of 1921, I was taken ill with my heart, but did not pay much attention to it. I kept on with my household duties, but seemed to become worse and worse, and finally had to call in a doctor. He said I was all run down and was a nervous wreck. I had a severe pain in my chest which would move over to my heart and it became so bad I could not lie down, as when I did I had such a smothering feeling I would have to sit up in bed till it passed away.

I tried reveral remedies, but with no good results. Finally, I was induced to try Milburn's Heart and Nerve Pills. I took 7 boxes, and I am now as well as I was 30 years ago, and I am now 65 years old."

Milburn's Heart and Nerve Pills are 50c a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The first half of the men's section Fraternal Whist League schedule is nearing a close. Tonight the games will be as follows: Oddfellows vs. Knights of Pythias; Moose vs. Sons of England; Knights of Columbus vs. Sons of Canada. The last game before Christmas will be next Thursday evening between the Great War Veterans and Sons of England. With each team having played eight games, the second half of the schedule will be opened after the New Year. Depending on their game tonight with the Sons of England, the Moose will either be exclusively in first place or will be tied in that position with the Elks while the Sons of England have a chance of sharing that position also if they win the game tonight and also next week's. The chances of the Knights of Pythias, now running in fourth place, are also good to eventually come out on top though they cannot do so now in the first half.

The Badminton Club has inaugurated a ladder competition in which every member is scheduled to take part. The names were drawn Tuesday night and several challenges issued immediately and the games played. The competition is for the purpose of deciding which are the better players in the club as any member may challenge the one next above him in the ladder.

General improvement in fielding was noticeable in the American League during the season of 1923. Regardless of other departments of the game, the defensive quality of the Yankees had much to do with winning the pennant and the world's series. The league champions led all other teams of the League in fielding with a mark of .997. St. Louis, even without Sisler, finished second while Chicago brought up third. Detroit, Washington, Philadelphia, Cleveland and Boston followed in order.

Of those first basemen who participated in more than 100 games in the American League during the past season, Judge of Washington was the leader in fielding. Aaron Ward of New York was the leader of the second basemen after a sensational season's performance. The work of Dugan of New York at third base was superior in that class and Scott also of the Yankees finished with the leadership of the shortstops. Witt again of the Yankees was leader of the outfielders. Harold Ruel of Washington led all the catchers in putouts with 528 and seven pitchers finished with clean records in fielding, the record of Dauss, the Detroit hurler, with a mark of .990 after having taken part in 50 games being outstanding.
