Your Friends

If there is one thing we do appreciate in this world it is our friends and to find a charming and sincere way in which to tell them so is a problem that is not easy to solve.

There is, however, one season of the year when expression of appreciation and friendliness is appreciated.

The Xmas Season

No token of friendship is more effective than a LASTING GIFT no matter how small. It gives the sterling ring of sincerity as nothing else can do in the years to come.

OUR LARGE RANGE OF JEWELLERY,

Diamonds, Watches, Clocks, Silverware, Cut Glass, China, Genuine Ivory, Umbrellas, Brassware, Lamps, Leather Goods, Amber Cigar and Cigarette Holders, Pipes and Novelties.

Will Solve Your Problems.

MEXICO LIKELY GO DRY SOON

Will be Great Help in Enforcing Prohibition in United States

WASHINGTON, Dec. 6.—Mexico is headed for prohibition, according to the Board of Temperance of the Methodist Episcopal church.

According to statements put out on the authority of this body, investigators have recently gone into Mexico in its behalf. They report that the dry cause is making great progress in that country, that the great province of Chihuahua in the northern part is on the verge of going dry and that President Obregon of Mexico and many of the leaders of the government are dry. It is said that the new administration of Mexico, to succeed the Obregon government, will be dry whether Calles or Huerta is elected and that each of these men inclines toward prohibition.

It appears that the prohibition cause in Mexico is being urged on by drys from the United States. If assertions of the Board of Temperance are not overdrawn, Mexico is likely to line up with the ranks of the prohibition countries in the near future.

For the United States, the matter possesses no small importance. Should Mexico go dry it will make a great difference in the amount of liquor smuggled into this country over the southern border. It would simplify the problem of enforcement for the federal prohibition officers, provided, of course, there was strict enforcement in Mexico. It would leave the dry agents more free to watch the coast lines and the Canadian border.

Word was received just before going to press that the train inbound tonight would be five or six hours late.

TACOMA, Washington, U.S.A.

¶ Oh no, Mother, there is no need to worry about Jim's health. These symptoms of piety and unnatural goodness are quite seasonable. You know what's coming next month.

¶ Father need not worry about his pocket book either. Children demand things that are new and interesting and modern, rather than expensive gifts.

¶ Yes, it is true he has a lot of young people to remember and buy presents for, but hundreds of factories know this and have been making things for twelve months to help him out of his difficulties.

¶ From the new fur or the new winter suit you are hoping he may buy for you, to the tiniest toy for the smallest of the babies the advertisements in the paper should be your guide.

¶ At this time of year when you are planning ahead, let your thinking be of some value.

ARCTIC EXPEDITION PROVES INTERESTING

Call Was Made on Donald B. McMillan Party on Ellesmere Island

OTTAWA, Ont., Dec. 6.—(Canadian Press).—Ottawa has followed with great interest the fortunes of the past summer's Canadian arctic expedition, which adds another chapter to the checkered history of the northward course of Empire.

The expedition, under J. D. Craig, supplemented the work inaugurated in 1922 which had for its object the preservation of Canadian sovereignty, the introduction of law and order and the enforcement of existing regulations. A distinct feature of the trip was the introduction of British justice in the Franklin district in the person of Justice L. A. Rivet, who conducted a trial at the Mounted Police building at Pond's Inlet. Noo-kud-lah and Janes, a trapper, had been at daggers drawn for a considerable period and the former got rid of the trapper according to his primitive way of doing things. After due deliberation, it was decided to have Noo-kud-lah confined to the Stony Mountain Penitentiary, Manitoba, for ten years, and an accomplice was sentenced to two years' detention at Pond's Inlet under police supervision.

Mr. Craig and Captain Bernier are immensely pleased with the trip and its outcome. The ship covered 7,500 miles and its itinerary included a stop at Gready Harbor, Labrador; Godhavn, Greenland, Craig Harbor, Ellesmere Island and Etah, Greenland, the farthest point north touched by the boat. Here the expedition conducted by Donald B. McMillan was encountered, which made a delightful break in the ship's routine. Owing to ice conditions, it was impossible to establish a police post at Cape Sabine.

FUNERAL SERVICE

For Late Miss Amanda Bolden Was Held This Afternoon—Shipping Remains Tonight

Funeral services for the late Miss Amanda Bolden, who died early in the week, were held this afternoon at Hayner Bros.' chapel, Archdeacon G. A. Rix officiating. The remains will be shipped this evening to Vancouver for burial. Those sending flowers included Mrs. Childs, Miss Larsen, Miss Ramsay, Miss Harris, Miss La Rose, Hayner Bros., Billy and Jean, Emma and Frankie, Mr. and Mrs. Charles Burnham and James.

LIVING COSTS IN GERMANY CAUSE OF WORRY TO WOMEN

BERLIN, Dec. 6.— The high cost of living hounds Germans from the cradle to the grave.

Layettes for the baby are so expensive few families can afford them. A child's shirt cost from 12 to 20 billion marks in November. Even a second-hand perambulator costs 30 gold marks, and the mid-wives and doctors have all placed their fees on a gold-mark basis.

It costs trillions of marks to outfit a new arrival in a German family these days of declining paper marks, and the trillions are lacking in all families excepting those of profiteers.

A girl baby is more of a tragedy than a boy baby in the average German family today, because of the dowry which must go with every German girl who finds a husband. No girl without a dowry can avoid being an old maid in Germany, and there is little prospect of the average German family accumulating enough surplus to endow daughters with sufficient linen and money to make them attractive to German men who have a large assortment of women to choose from because of the great excess of the female population.

NEW LAMP BURNS 94% AIR.

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% aid and 6% common kerosene (coal oil).

The inventor, G. A. Johnson, 579 McDermot Ave., Winnipeg, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $250 to $500 per month.
