BRINGING UP FATHER

By George McManus

TO GET RID OF STEAM PLANT

Usefulness Outlived, Utilities Committee Recommends Sale of Machinery

A recommendation from the utilities committee that the equipment in the old steam plant at Cow Bay be sold by tender was received by the city council last night and laid over for one week pending the arrival in the city from the south of a prospective purchaser.

In connection with the recommendation, there was a report from the superintendent in which it was stated that the dry dock connection had proven successful and the city was thus no longer in need of the steam plant. As the equipment there was deteriorating the time was deemed ripe to sell it. It is estimated that $14,000 will be realized through disposing of it.

Ald. Macdonald, chairman of the finance committee, felt that since the city had no further use for the plant the money realized from selling it would be worth more to the city than the equipment would ever be. An offer of $880 had been made for one boiler and this same purchaser might buy the whole equipment. He was arriving in the city this week. The superintendent was taking an inventory and valuation of the equipment.

Ald. Collart concurred in the opinion that it would be well to get rid of the plant.

FIFTH AVENUE GRADING WORK

Further Discussed by Council Last Night but Action on Matter Deferred

Practically agreeing to a policy of carrying out the Fifth Avenue East rough grading project on contract basis, the city council further discussed the matter last night but definite action was deferred until further information is received from the Board of Works.

The Board of Works had a report recommending that the work be done by day labor under the sppervision of the engineer and that a start be made as soon as the statutory requirements had been compiled with. Ald. Collart and Ald. Stephens took exception to the principle of day labor and, after discussion, Ald. Perry consented to change the reading of the report to provide for the calling of tenders including a bid from the city engineer.

Ald. Stephens felt that the whole matter was a little premature since plans had not been completed and details not arranged.

Ald. Collart thought that the city should have made arrangements for a new rock crusher before the surfacing commenced. The city engineer reported that he expected to have figures on the crusher in the course of the next few days.

Finally the mayor referred the matter back to the Board of Works for further information.

ANTONELLI CONTRACT IS TO BE CLOSED OUT

Work in Section 5 is Completed and the Contractor to be Paid with Exception of 10 percent Holdback

The city council last night discussed the matter of A. Antonelli's contract for crushing rock and surfacing work on Fourth and Fifth Avenues in Section 5 and decided to refer the question to the Board of Works with power to act in closing out with Mr. Antonelli with the exception of the usual 10 percent holdback retained until 30 days after the execution of the contract. Apart from the 10 per cent holdback, some $366 is due Mr. Antonelli from which is to be made certain deductions for the replacement of city equipment. Mr. Antonelli submitted a letter objecting to having to pay $119.50 for a new axle for the city truck which was broken while he was using it. He claimed that the axle was not new when he got the truck and therefore he should not be required to pay the whole cost. He suggested a 50-50 basis. This point was also left in the hands of the Board of Works to settle.

TELEPHONES SHOW DEFICIT ON ACCOUNT OF NEW WORK DONE

Due to the fact that $1820.85 has been expended on new construction, the city telephone department in the month of October showed a deficit of $973.85 according to the report of E. Love, superintendent of utilities, submitted to the council last night. Since the first of the year $5,511.76 has been spent out of revenue for new work and a surplus of $2,100 for the ten months is shown. The revenue in October was $3,650 and the expenditure, $4,623.85.

TELLS OF HUNTED PEOPLES OF EAST

Dr. Nansen's Report to League of Nations Assembly is Interesting

In his report to the assembly of the League of Nations Dr. Nansen tells how the defeat of the Greek forces in Asia Minor, the burning of Smyrna, the failure of the Treaty of Lausanne to give confidence to the Greek and Armenian Christians of Asia Minor, the evacuation of Constantinople by the Allies, and the demeanour of the Turk towards all but Turkish Moslems within their new borders in Europe and Asia have led to one of the greatest migrations and wholesale flights known to history. The enlarged but still small kingdom of Greece has received shiploads and trainloads of these mostly destitute, sick, starving, shelterless, and ill-clad hunted men, women and children, till her population has bounded up by over a million, or one-fifth of the whole. They are at overcrowded Athens; they are on the Greek islands which can support no more than their former populations; they are in Macedonia by thousands in the malaria-ridden districts round Salonika; they are encamped in Western Thrace, where there is vacant land. Here lies some promise for the future.

AUSTRALIAN ARTIST CAUSES SENSATION AMONG LONDONERS

Australia, as represented by one Australian, is making London talk, says the London Times. It is also making Londoners argue. It has given them the sensation so many of them love. Neither the Imperial Conference in general nor Mr. Bruce in particular has produced this result. Mr. Bruce indeed has made his impression, and the Imperial Conference has caused serious remark. But the black-and-white work of Norman Lindsay has had a really rousing effect. Mr. Lindsay's pen drawings and etchings, which stand out as the individual feature of the Australian Art Exhibition at Burlington House, are allowed to be extraordinarily fine examples of imaginative work. Some they shock; by others they are justified; and the clash of opinion brings Australia to the front in gatherings where the reports of the Imperial Conference are not deeply studied. Nobody need complain—not even the statesmen. Agamemnon, if he is to live to fame, must have his Homer; and a country which wants to be known could desire no greater interpreter than a compelling artist.

SIX TO ONE

He was an argumentative local Councillor, and was crushing an opponent's case. "Gentlemen," he said, "you may say, with Councillor Smith, that this is a case of six of one and half a dozen of the other. But I say, No"—pause for emphasis—"No, it is nothing of the sort. It is exactly the contrary." — Yorkshire Post.

A CANADIAN cook who only recently used Carnation, writes: "I've never found its equal." She recognizes Carnation's economical and convenient Pure Milk Service.

Remember, Carnation is twice as rich as whole milk because it contains twice the proportion of cream. It is just 100 per cent cows' milk reduced to the consistency of cream. Nothing is added, not even sugar.

The high quality of Carnation is due to the excellence of the fresh milk used and to the extreme care exercised in every department of the modern Carnation condenseries.

Use Carnation for every milk and cream purpose—as whole milk, as cream with coffee, cocoa, fruits and cereals. Ask your grocer to deliver a supply today and convince yourself.
