### THE CROW OF CROUP A WARNING TO ALL MOTHERS

Croup starts with a dry cough and rattling in the throat after which the croupy crow gives warning of the disease. The child, after tossing restlessly about, with start up with a flushed face, protruding eyeballs, and a distressing look of terror and anxiety. There is a struggle for breath, and the expectation of the morous matter is so difficult to get rid of that the effort appears to threaten strangulation.

On the first sign of the "croupy crow" mothers should administer Dr. Wood's Norway Pine Syrup, and thus give the child prompt and permanent relief, and perhaps the life saved by taking this precaution.

Mrs. H. A. Langhorn, Hamilton, Ont., writes: "My little boy was very bad with the croup and I could not get anything to relieve him until I tried Dr. Wood's Norway Pine Syrup. I cannot praise it too highly for the relief it gave him."

Price 35c a bottle; the large family size 60c; put up only by The T. Milburn Co., Limited, Toronto, Ont.
