Suds all through  
Cleansing soap in every drop of water

Put your hand in a tub of Rinso suds. You can feel that the water is actually soapy all through.

This is one reason why Rinso soaks clothes clean without hard rubbing.

A few minutes at night—just the little time you need to put the clothes to soak in these rich suds, and Rinso suds work down into every fold and fibre, loosening the dirt without weakening a single thread.

Just a light rubbing with Rinso on cuff edges, neck bands and the like, gets them clean—the dirt is loosened.

Be sure to use enough Rinso to get the big lasting suds, that give the water a soapy feel all through.

NOTE: In hard water it takes from 3/4 to 1 package of Rinso to a tub to make good suds. In very hard water you will need from 1 1/2 to 2 packages to a tub to get the big lasting suds that loosen all the dirt.

"The House of Quality"

FROCKS

Aren't you just keen to own a new Frock? You'll be even keener once you've seen them. Skirts that circle, rather than those that sink, distinguish informal frocks of flat crepe and some flaunt centre front drapes.

Beautiful Frocks trig for street wear, and always suitable for the emergency of an afternoon occasion, show a favoritism for Indian embroidery. It's a feature of the Oriental trend.
