MAURETANIA IS WAS SERIOUS SPEEDIEST SHIP

Cunard Liner Keeps Atlantic Blue Ribbon from Contender, Leviathan

LONDON, July 17.-With the urrival at Cherbourg from New York of the Cunard Line steamer Maurelania at 7 o'clock yesferlay morning and at Southampon the same afternoon, making ier voyage across the Atlantic at in average speed of 24.16 knots, is natural that comparison should be made with the Levia-'han which preceded the Cunarder. It is interesting to recall that on her initial voyage the Levia han made a speed of 23.65 knots. This tends to justify the quiet confidence expressed by Capt. Rostron, on the occasion of his arrival at New York, as to the ability of the Mauretania to hold her own in any company and also furnishes abundance of ON DIGBY ISLAND evidence as to her capability of maintaining the blue ribbon of the Atlantic acquired by making Herbert Lockwood Charged With the shorter course from New York to Queenstown in the epoch making record of four days, ten

BRITISH NOTE

Document Being Completed by Lord Curzon to U.S. Soon

LONDON, July 17-Foreign Secretary Curzon drew up additional sections of the British reply to the German reparations note today. It is hoped to present full texts both of the draft and covering letter to the cabinet tomorrow. Copies of both the documents will probably reach Washington by the end of the week. The proposed reply will be carefully phrased with reference to Germany's passive response and the American suggestion of an international body to audit Germany's assets.

Dominion Grain Commission Coming Here to Investigate Possibilities for Shipping

The Dominion Grain Inquiry Commission, which is now holding investigations on the prairies and is working west, will visit Prince Rupert this fall to investigate grain shipping possibilities of this port. This was indicated yesterday afternoon by Fred Stork, M.P., on enquiry of the Daily News. Mr. Stork said that he had invited and, in fact, insisted that the commission should visit this port and the chairman, Dr. Turgeon, of Nova Scotia, had promised him at Ottawa that it would. Vancouver and Victoria will also be visited.

The particular mission of the vestigate the movement of prairie SAYS B.C. HAS grain to the Pacific seaboard and beyond.

The commission has been given a free hand by the Department of Trade and Commerce to examine into all methods of grain handling in Canada. It is now examining the points of origin of grain and will follow this up with an examination of some time in September.
