His automobile crashed into Detective John Fleming's car vesterday. Fleming noted that Feldman's driving licence bore the notation: "Void if not wearing glasses."

Feldman was not wearing glasses and was given a ticket at a police station. With glasses on, Feldman got into his car to drive away.

The vehicle crashed into another car and caromed off it into Fleming's car.

A friend drove Feldman home.

Test Pilot Gets Detested Publicity

By ALAN HARVEY Canadian Press Staff Writer

LONDON (P) Canadian-born W.A. (Bill) Waterton, who riskhis life in a crash landing limelight he de-

For Sodn. Ldr. Waterton, a nave of Edmonton who grew up Camrose, Alta., eschews herco In a recent, reluctant reply view, Waterton pleaded that his ame be kept free of "sensaand the extrovert su-

Waterton is chief test pilot of Britain's supersonic flying triangle, the Gloster G.A. On a trial pin Sunday he took the jet up from Moreton Valence airfield. near his home in Gloucester, to try out its new elevators.

Something went wrong . But instead of bailing out, Waterton nursed the plane down, risked a crash and saved flight details recorded in a camera log. Par of the plane burned out but Waterton was unhurt.

A Gloster official said Watertor did a "wonderful job."

he stayed to save the recording instruments," the official said. variety of goods to choose from. There seemed to be three chief of the flight."

hope of Britain's future air de- we are that price withdrawal is lans; and buyer resistance. fences for these islands. Its twin jets are believed capable of providing a top speed of more than 760 miles an hour. Three weeks ago the air ministry gave superpriority to production of the celta-winged craft.

Present British defences are provided largely by Vampire jets. For the first time in history, the RAF finds its forces qualitatively superior to those of the RCAF. which has a fighter wing at North Luffenham, Rutland flying the F85 Sabre jet.

It will probably be at least four years before the Glosters are produced in quantity.

Waterton, cautious as ever, says merely that the G.A.T. has a performance "which promises to be markedly beyond the standard of current plank and swept

Waterton, a big, burly type with a flowing RAF moustache, was educated at Camrose and at the Royal Military College in Kingston, Ont. He also took a short course in physical education at University of Alberta, He was a fleutenant in Edmonton's 19th Alberta Dragoons, but later joined the RAF and served in fighter, training and trans-Atlantic ferrying commands.

He was a pilot on high speed flight tests over Tangmere, Sussex in 1946 and then was attached to A. V. Roe (Canada) Limited for 15 months for trials the KF100 all-weather
