#### Road Improvement Need

THERE ARE THOSE PEOPLE who hold that we have been overly enthusiastic in our defence of the condition of the Prince Rupert Highway as we protest at the reports which have been in circulation suggesting it to be in a state of nigh impassibility. Nothing has been really said, however, that would suggest the road is not in need of many improvements or that it is by any means a first class highway. Indeed, it has been suffering from lack of adequate maintenance and attention and, as the season advances, its condition is becoming no better. Those who point to the need of work and plenty of it in betterment of the Prince Rupert Highway are right enough and it is well that we should keep pressing for the carrying out of the work along this line that is our due.
