Compliments Can Wait

V/HILE Social Credit has made a commendable W showing in our provincial election and will undoubtedly have much public support if asked to form a government, its present official spokesman Lyle Wicks must realize at once that preliminaries are over and that the game has begun.

Advised of a report that Premier Johnson will recommend Social Credit as the party to form the next government, Mr. Wicks took the opportunity to say to a radio reporter that his group was being asked to repair the mistakes of the old regime which he felt was a natural request.

He ended by congratulating B.C. on its choice. Perhaps he had no time to consider his brief remarks but coming over the radio, they sounded graceless and smug. They smacked of days before June 12 which everyone is glad to forget, and somehow inferred that Social Credit had scored a smash. ing victory.

As far as congratulations to B.C. are concerned, these seem slightly premature. Mr. Wicks and his colleagues may be rightly congratulated on their showing but compliments from them to the public can wait for a while.

We are waiting to be shown, Mr. Wicks.

When The Sun Shine's

OMPLAINTS about the weather have been top - priority conversation topics since time immemorial. In Prince Rupert such complaints run heavy during the rain season. But how easily the bad days are forgotten when the sun shines.

It is the same in other aspects of our everyday life. We worry for days, weeks, and even months about little things which may go wrong. Then, when we have a break, we feel as though we never knew about any trouble at all.

It shows, that after all, there is little use in worrying; as there is little use in complaining about the weather. There is always the day when the sun shines.

BUSINESS SPOTLIGHT

A Boom For 'Dark Africa'

By FORBES RHUDE

Canadian Press Business Editor

"Darkest Africa" is having a boom.

The dream of a native of the Belgian Congo is to own a phonograph, a bicvole and a radio: or, in the more practical realm, a sewing machine. His dreams are broadening and,

which meets regularly in London and airs its views for the whole of Asia to hear on the British Broadcasting Corporation's Far Eastern Service. No membership fee is charged and the members, mostly teachers and students studying in Britain, ask no-holds-barred questions of a British guest speaker, thus providing an example of the free speech of democracy. Pictured here facing smiling Asian inquisitors is Compton Mackenzie (left) noted British novelist and playwright, making a guest appearance.

Sees Two-Faced Man

ONE of the interesting ing. visitors who have come been forecast for the United good growth. Damage from bed in Shaughnessy Veterans' Hospital is Curley. Curley has only a few yards to come, for he has been a long time patient here in the arthritis

They call him Curley because he has a dome as bare as a billiard ball-a fact which adds much to the gaiety of this institution on all festive occasions For on Hallowe'en ,at Christmas parties and such like, the nurse transform Curley into the origmal two-faced man. They literally paint a second face on the TURN THUMBS DOWN back of Curley's bald patecomplete with bright blue eyes, the other trimmings.

According to Curley, who has quite a reputation for tall tales the biggest one, the United the two-faced phenomenon had given some nervous lady visitors quite a shock at timestill they tumble to the fact that it is all a joke and that the poor man hasn't had his head turned right around by an atom bomb or something

CURLEY is a natural born joker wheat pact held in London last we used to get, once in ten thou- sults. Another one is scheduled sand times, in the army. To look for the Fall. at him, crippled as he is, you would wonder what he had to be

sc cheerful about. But get him talking seriously about his own life and you find that there is enough wisdom hidden away in that old bald pate-maybe enough to justify the two faces they give him.

Curley is a Yorkshireman who went into the textile mills at the age of ten.

"If that seems young remember that my father and mother went into the same mills at the age of six.'

Curley can remember how scared he was as his father took NOT TOP GRADE him by the hand and led him charter members of the Labor tough and difficult to handle. party in his town—and in those | This year the weatherman, so days it was worth almost as far, has been a lot more comuch as your job to stick your operative. As I See It | Grain Men Expect Bumper Crop: Price Big Factor

By HAROLD MORRISON Canadian Press Staff Writer

Canadian grain experts anticipate the biggest wheat crop in history this year, but faces dull when they consider what this may do to international bargain-

if the Canadian crop develops into another bumper or peak for a curb on export prices. Some 40-odd countries negotiating for a new interna-

tional wheat agreement to replace the current one which expires July 31, 1953. The wheat-exporting countries, Canada and the United States. demanding that the price ceiling be raised substantially from the current \$1.80 (US) a bushel in 1947. for No. 1 Northern.

Canadian negotiators want ceiling of between \$2.15 vivid red-lipsticked lips, and all \$2.35 a bushel. The U.S. has suggested about \$2.50 a bushel. But wheat importers, including Kingdom, have turned thumbs down on any price advance.

With an eye on the heavy wheat stockpile that may develop in the western world, they have indicated the price should remain at the present price. a result, a prelim inary meet ing on development of and morale-raiser of the kind May achieved no concrete re-

By that time, the negotiators Tangier and Mogador, historic will have a clearer idea of the cities of French Moroco. wheat supply. There's a feeling in Ottawa that by then it may be harder than ever to persuade the importers to agree to any boost in price.

For conditions in Canada point to the heaviest wheat crop in history. Any shift in the weather may, of course, upset the outlook, but so far the experts anticipate the crop will be far greater than the peak harvest of 566,000,000 bushels in

Canada came close last year down the narrow passageway be- when she produced a neartween the giant looms. A few record 562,000,000 bushels, but years later he was one of the part of that crop was damp and
