We will not accept goods at prices that we know will not give you FAIR VALUE

No, we're not superman but we do know how to run our business. FIRST: We spend over half each year searching the market at direct factory sources until we secure the best values for quality goods. SECOND: We try not to cater to charge accounts because charge accounts in any volume can only mean additional cost of operation. THIRD: We do not have Budget Accounts as, from our experience, somebody must pay the extra expense of budget accounts.

Railroad watches never increased in price all during the war. As a matter of fact the price has been reduced

since the exchange has been taken off Canadian funds. The Hamilton Railroad Watch was formerly \$90

and is now \$82.50. The Ball watch used to be \$95.00 and is now \$90.00.

The Elgin Railroad Watch is now \$75.00.

We have all three of these fine watches in stock at present and would be glad to show you.
