Series Preview—

Strategists Seek Weakness In The Infields

NEW YORK, (AP)—There is little or nothing to choose between the infield quartets of the coming World Series, judging by the figures, so it becomes necessary to try to single out the one player in the group who might by his individual exploits blow the big play-off wide open.

That one would be Jackie Robinson the Negro rookie who plays first base for Brooklyn Dodgers. He could do it.

Both pennant winners have superior infields. Each boasts a crack double play combination Neither packs a great deal of power in its inner works. It comes down, as this observer sees it, to a comparison between Robinson and his first-basing rival, the veteran George McQuinn of the Yanks.

McQuinn made a great comeback this season. Bucky Harris yanked him right out of the boneyard last winter, and George has repaid him tenfold. The oldster has slugged a resounding .300 (the same as Robinson), and he has whaled 13 homers (one more than Robinson). He undoubtedly is a slicker fielder than the Nego rookie.

But there the comparison ends and Robinson takes over. It is no exaggeration to say that the pigeon - toed freshman from Montreal "made" the Dodgers. Chances are he will be named the most valuable man in the National League

Unless one has watched Robinson play a good number of times, it is difficult to appreciate his brilliance or understand why he is such a pain to the opposition. The fact that he has stolen 27 bases—more than all the Yankees combined—doesn't clear it up.

ANNETTES TOP LADIES' BOWLING
