TERRACE SEEKS BETTER SERVICE

TERRACE—Following representations to the Dominion Government Telegraphs, a 24-hour telephone service is being provided in Terrace. Two local girls have been engaged to assist in giving the service.

While speedy action has been obtained as far as the telephone utility is concerned, there is some impatience in regard to electric light and water services.

The British Columbia Power Commission is being communicated with by the Terrace and District Board of Trade urging a speeding up of the putting in of the street lighting system for which light standards and other equipment were to have arrived by October 15.

The water supply, at present uncertain and inadequate, is the cause of particular impatience and a special committee has been named by the Board to meet with the village commissioner son the matter. Meanwhile, lack of a regular water supply is one of the factors that is delaying the opening of the Terrace Red Cross Hospital.

MR. KENNEY AT TERRACE

TERRACE—Hon. E. T. Kenney, minister of lands and forests, arrived yesterday afternoon to spend a few days visiting in his home town here. Last night the Terrace and District Chamber of Commerce met with him at a dinner meeting when discussion of a number of matters of interest took place. The minister is also being met while here by sawmill and timber operators of the area to discuss the future of the industry. Mr. Kenney and his deputy minister, C. D. Orchard, will drive in a day or so to Prince George where they will enplane on their return to Victoria.

"You know, I haven't stopped chuckling yet about that Congress of Labor resolution the papers printed a week or so back," said the Old Timer this morning.

"I've been thinking what a shock it must have been to the Communists there to be faced right up with a resolution saying there was rampant and militant Communistic imperialism, assisted by fifth columns in all countries, as well as monopolistic capitalistic imperialism.

"It's the part about the fifth columns in all countries that impresses me, coming from that source. It sure does look like the labor people in this country are getting wise to some things that should have been clear to them long ago.

"It was Phil Murray, wasn't it, one of the two biggest labor leaders in the United States, who said some time ago that every Communist was naturally a traitor to the labor movement? It is in the nature of things. A member of the Communist party is trained to bring about trouble, start rows, create dissension, cause strikes, do everything possible to unsettle things, all with the idea of bringing about conditions in which their pet idea of the revolution can come about.

"How can a man working for those objects be a labor leader? Labor is working for higher wages, shorter hours, and security. No Communist really wants conditions that bring about contentment and happiness. Sure, they'll use the labor movement — but for their own purposes."
