Protest At Worst Road

Indignation of Babine People Grows as Business and Tourist Traffic Held Up

Not only is the deplorable condition of the 27-mile road from Topley, on the Canadian National Railways line and the northern transprovincial highway, to Topley Landing on Babine Lake seriously hampering normal industrial and business travel of the area but, according to word reaching the city, it is putting an almost complete stop to anything in the way of tourist or holiday travel into that beautiful country of lakes and mountains where angling of the big time class in summer and bird and moose hunting in the fall and early winter make of it a sportsman's paradise.

A year ago indignation was being expressed over the condition of the road. Today that indignation is doubled and all and sundry are protesting vigorously. A mass petition is being gotten out seeking improvements.

The road, seemingly allowed to go without attention whatsoever, is a mass of great holes. Mud is so deep when it rains that some motorists have been known to get out and take soundings before venturing forward.

There are two sawmills at the end of this "revenue road" on Babine Lake. It is also used extensively by the Fisheries Research Board which has a large project on Babine Lake and by the Forest Branch. It is also the main avenue of the Hudson Bay Co. in hauling freight to its Babine post.

Reluctantly, local residents have been compelled to advise tourists to turn back after rainy weather.

GIRLS OFF TO KINSMEN CAMP

The Kinsmen summer camp at Lake Lakelse, near Terrace, started its third session on Sunday, only this time it was slightly different than before. The campers who climbed into a bus here at 8 o'clock Sunday morning were all girls, 22 of them.

The current session is the first in the two seasons that the camp has run that girls have been included in the 10-day camping periods. It will terminate August 6. Last year, there were three boys' sessions, and so far this year, there have been two sessions for boys.

The last boys' session which closed Sunday was even more successful than the first, Kin President R. E. Montador reported. The weather improved, thereby offering more opportunity for outdoor activity.

Girls who left for camp Sunday were Mary Addison, Maria Brett, Verna Erickson, Margaret Giske, Mary Greenwood, Marion Horne, Yvonne Kildal, Sherry Lashmar, Beverly Mattson, Mathilde Marki, Elizabeth Martin, Carol Moorehouse, Ethel Moorehouse, Joyce Moorehouse, Norma McKay, Shirley Pierce, Jean Sharpe, Margaret Strachan, Joyce Strand, Marjorie Way, Pauline Telseth and Marjorie Howe.

Former Local Girl Scholarship Winner

Dorothy Gwendolyn Lambe, daughter of Mr. and Mrs. H. M. D. Lambe and a former Prince Rupert girl, was winner of a district scholarship in Vancouver at recent junior matriculation examinations. A student at Lord Byng High School, she topped, with a percentage of 95.5, the district which includes Lord Byng, Magee, Prince of Wales, University, High Hill, Crofton House, St. George's, Vancouver, York House and other private schools in the area.

MORE ON HOTEL MAY BE HEARD

Olier Besner, who sailed yesterday on his return south after a week in the city looking over the local business and industrial outlook, says the time is coming when more complete and modern hotel accommodation here will be needed. This was one of the matters which brought him north. While he cannot as yet make any definite statement, something may be looked for before long because he sees important developments ahead both here and for the district.

Mr. and Mrs. A. Ivarson returned on the Prince Rupert this afternoon from a holiday trip to Vancouver.

WHITMORE NEW FISH SUPERVISOR

A. J. Whitmore was recently appointed chief supervisor of fisheries in British Columbia for the federal government. He has long been a member of both the International Sockeye Salmon Commission and the International Fisheries (halibut) Commission.

We will not accept goods at prices that we know will not give you FAIR VALUE

No, we're not superman but we do know how to run our business. FIRST: We spend over half each year searching the market at direct factory sources until we secure the best values for quality goods. SECOND: We try not to cater to charge accounts because charge accounts in any volume can only mean additional cost of operation. THIRD: We do not have Budget Accounts as, from our experience, somebody must pay the extra expense of budget accounts.
