DAY TRIPPERS POSE PROBLEM

BRIGHTON, England (CP) — Brighton, who proudly calls itself the "queen" of British seaside resorts, is embarrassed by the post-war popularity which floods it on summer week-ends and holidays with "day-trippers"—visitors who run down from London for the day and spend little in the town.

The problem has been given added urgency by a current movement for amalgamation with the neighboring towns of Hove, Portslade, Southwick and Shoreham, all of which claim they don't want day-trippers.

"An amalgamation of Brighton and Hove would give much wider scope to enable the borough council to cater for all classes of visitors," said A. E. Orbell, president of the Brighton and Hove Chamber of Commerce and Trade.

"It's ridiculous to suggest that Brighton, only an hour's journey from London, should welcome only week-end or longer term visitors. But we must have a sense of proportion and maintain the broad principle of encouraging trippers as far as possible to go to the eastern end of the sea front."

MAY TRY SMALL SCALE URANIUM

WELLINGTON, N.Z. (CP) — Investigations into the possibility of producing uranium in New Zealand have been made in recent months by the department of scientific and industrial research in co-operation with gold-dredging companies operating on the west coast of the South Island. The research indicates that small-scale production could be undertaken if necessary. However, in order to effect complete recovery of uranium by means of the gold dredges their output of gold would have to be reduced and officers of the department have been sent aboard to study methods of separation from dredge tailings and certain sands with a view to evolving a more efficient method of production for New Zealand conditions.
