## 500,000 PEOPLE ATTEND LENINE FUNERAL

### ARRANGEMENTS MADE FOR LANDING OF FOUR ROUND WORLD PLANES HERE

#### Lenine Acclaimed at his Funeral as one of Saviours of Mankind Half Million Attend Obsequies

MOSCOW, Jan. 28.—Nicholai Lenine was entombed yesterday afternoon and followers of the rulers of Soviet Russia hailed him an hour before his burial as greater in death than in life and paid him honors that a king might envy. They withstood for hours the bitterest cold the Bolsheviki capital has known in a year. Half a million persons marched or waited eight hours in a temperature of 30 below zero for the privilege of passing the temporary mausoleum hastily built under the walls of the Kremlin fortress.

#### GOLD AGAIN AT LEECH RIVER

Miner Thinks He Has Discovered Motherlode from Which Dust Came

VICTORIA, Jan. 28.—Arthur Phillips of Victoria, an old time prospector, confidently believes he has found the mother lode in the Malahat district at the junction of the Leech and Sooke rivers, the scene of a gold rush forty years ago, when the gold commissioners' office was established in the midst of three thousand miners.

From 1862, when the first rush started in 1870, \$3,000,000 was taken out in placer mining, which proved highly profitable, but nobody was able to find where the gold came from. Phillips believes he has solved the mystery by finding small nuggets embedded in the feldspar which gives a gold appearance to the white rock.

#### BUILD CANALS GREAT LAKES

Company Incorporation sought View to Carrying Big Ships to Head of Lakes

OTTAWA, Jan. 28.—Notice has been given that application will be made to Parliament for incorporation of a company to be capitalized at \$500,000,000 with power to connect the lower St. Lawrence River by ship canal with the head of the great lakes, states the Journal this afternoon. If these were constructed ocean vessels would go right through to Port Arthur.

#### POINCARÉ GETS GOOD SUPPORT

Taxation Designed to Strengthen Franc Will be Considered at Once

PARIS, Jan. 28.—The chamber of Deputies by a show of hands supported Premier Poincaré in his demand for immediate consideration of the new drastic taxation program calculated to strengthen the franc. The motion to postpone action until after the parliamentary elections was defeated.

#### VENEER MILL TO BE ESTABLISHED ON RIVER

Money Said to Have Been Raised For Project to Use Skeena Cottonwood

Last year a company was formed for the purpose of manufacturing veneer products from the cottonwood in the Skeena River and since that time efforts have been made, it is understood, to raise money with which to start a mill and factory on the Skeena River. Salvus has been mentioned as a possible location but nothing definite has been done in connection with a site.

A representative of the company is expected here soon to take up the matter of location and to arrange for the establishment of the mill.

#### THROUGH PASSENGERS NOT ALLOWED ASHORE

Capt. Davies of United States Steamer Victoria Sees That No Liquor Comes Aboard Ship

Alaska Steamship Co.'s Steamer Victoria, Capt. Davies, was in port this morning from 10.30 to 12 o'clock southbound from Seattle and intermediate Alaska ports to Seattle. Eleven passengers departed here and one went aboard. On the captain's orders, no through passengers were allowed ashore here. This was in order to insure compliance with the Volstead Act, which prohibits liquor being aboard a vessel flying the American flag. The action of the captain caused apparent disappointment among many of the 150 passengers.

#### STEAMING CLAUSE ANGLLO-AMERICAN TREATY INNOCUOUS

NEW YORK, Jan. 28.—Sir Auckland Geddes, prior to sailing on the Aquitania on Saturday said the hour's steaming clause in the Liquor Treaty between Great Britain and United States should cause no difficulty. Officials could determine the distance and speed of a vessel by examination of the engine.

#### POWER BY RADIO WOULD SIMPLIFY FLYING PROBLEMS

One of the most likely and hopeful developments in flying is through the development of radio, according to Lieutenant Clayton Bissell, who was here at the week end making arrangements for the landing of the planes in the round the world flight: If airmen could get their power from the air by means of radio it would immensely and would make long distance flights much more popular than they are today, he says.

#### USE HERRING LOCAL PLANT

Efforts Being Made to Have Permission Rescinded by Authorities

(Special to Daily News) VICTORIA, Jan. 28.—On December 26, the deputy minister of Marine and Fisheries gave notice that herring and pilchards caught on the Pacific coast could be converted into fish meal, fertilizer, oil and such products. Now word has been received here that efforts are being made to have the order rescinded on the ground that the use of herring in reduction works would deplete the fish.

It is understood this has a direct bearing on the situation in Prince Rupert where there is a reduction plant which could operate almost all the year round if the permission to use herring is allowed to stand.

#### CANADA MAKES FIRST POINTS

Beats Czecho-Slovakia by Enormous Score of 30 to 0 at Hockey in Olympic Games

CHAMONIX, Jan. 28.—Canada made her first win today when the Canadian hockey team defeated Czecho-Slovakia by the enormous score of thirty goals to nothing. The conditions were new to the Canadian players as there was no border fence against which to manoeuvre as is their habit in the big games in Canadian and United States rinks. Their splendid control on the ice, however, gave them a distinct advantage over their opponents who, apparently, had not ever played in the scientific manner peculiar to the game as seen in Canada.

Here is a genuine Albino and one of his brothers, born of the same parents, natives of the south sea islands. The Albino has one pink eye and one blue—a strange sight with his pure white hair and skin.

#### STUDENTS ARE UNDER ARREST

Employee of Post Office Let Them in and They Made off With Cash

BUTTE, Mont., Jan. 28.—Robert Eckler, E. Hellen and Bernard Quesnell, youthful students at the Montana University, Missoula, are arrested here charged with robbing the Missoula Post Office last night of \$35,000 currency. The money was consigned to a trust company.

Hellen had been acting as substitute mail clerk and it is alleged he admitted Eckler and Quesnell, who were wearing masks and presented their guns, bound Hellen and another clerk and escaped with the money.

#### INSPECTOR LONG VANCOUVER CHIEF OF POLICE FORCE

VANCOUVER, Jan. 28.—Inspector Walter H. Long, for many years on the local force, has been appointed chief of police in Vancouver. There were many applicants for the position. Inspector Long succeeds chief J. H. Anderson who recently resigned as a result of pressure of public opinion and the insistence of the Attorney General that the law be enforced in Vancouver.

#### HOPE GIVEN UP FOR RESCUE OF MINERS

SHANKTOWN, Jan. 28.—Hope has been given up for forty miners entombed Saturday by an explosion in the Lancashire mine here. Rescuers reported the mine dense with black damp. Water is rapidly rising.

SHANKTOWN, Jan. 28.—(later)—The bodies of 34 men who lost their lives in an explosion in the Lancashire mine have been recovered and five others have been located.

#### FOURTEEN MEMBERS OF TWO FAMILIES KILLED IN BLAZE

PAWTUCKET, Jan. 28.—Fourteen persons were killed in an explosion at Manville today. Escaping gas was ignited when the lamp was lit and as a result nearly all the members of the Gonway and Hamhill families were killed.

Earl Barrie took the services at the Baptist Church last night speaking on "The Friend of Man."

#### Four Seaplanes Planned to Arrive here April 1 En Route Round World

When the four round-the-world aviators drop into the water in the neighborhood of the cold storage plant and anchor their seaplanes at Seal Cove, completing the first section of their big flight on or about April 1, their chief business will be to get away for Sitka, if the weather is good. They are expected to leave Seattle at eight or nine o'clock in the morning and reach here probably about four in the afternoon. On tying up, they will at once proceed to go over their machines, to fill their tanks with fuel, and clean up in readiness for leaving in the morning.

#### FOOTBALL TEAM FOR ANTIPODES

Sixteen Players, a Trainer And an Official of Association to go

WINNIPEG, Jan. 28.—Sixteen players, a trainer and an official of the Dominion Football Association leave Vancouver on April 14 for a tour of Australia and New Zealand, S. Davidson, the secretary of the association, announced last night. The first game will be played at Sydney on May 10 and after eight weeks in Australia the team will go to New Zealand and tour four weeks.

The provincial associations will nominate 34 players from which sixteen will be chosen. British Columbia is entitled to select 8, Quebec 6, Ontario 6, Manitoba 4, Saskatchewan 4, and Alberta 6.

#### FISH DELAYED IN SHIPMENT

Will Not be Fresh When It Reaches Seattle by Steamship

Included in the cargo of the Alaska Steamship Co.'s steamer Victoria, which was in port this morning southbound from Alaska, were 215 cases of fresh American halibut being shipped from Ketchikan to Seattle. This fish, it is said, had been waiting five days at Ketchikan for the steamer to arrive. Naturally its condition has been impaired and it may not be described as strictly fresh when it reaches the ultimate consumers. Had it been shipped through this port and over the Canadian National Railways it would have been delivered and consumed in the East before it reaches Seattle.

#### WHEAT GOES BY WESTERN ROUTE

Preference for Western Shipments Shown on Winnipeg Grain Exchange

WINNIPEG, Jan. 28.—During the past month there has been excellent demand for wheat cargoes to go via Vancouver to the United Kingdom and immediate shipments have been commanding a small premium over Fort William values, it was stated on the grain exchange here. Cheap tonnage at Vancouver was responsible for the premium, while differences in freight favor Vancouver from a number of western points. Because of the abundance of tramp vessels offering, tonnage has been easily secured.

#### MANY GREEKS DEAD RESULT OF EXTREME COLD WAVE EUROPE

ATHENS, Jan. 28.—Scores of people are frozen to death as a result of an exceptional cold wave which is prevailing in Greece. A message received from Salonika says three soldiers and 156 civilians who were living under canvas are dead from exposure.

#### FINLAND WINS SPEED SKATING

Early Events in Olympic Winter Games at Chamonix

SWEDEN HOCKEY WINNER

CHAMONIX, Jan. 28.—Finland with only three men entered, won the first honors in the speed skating events of the 1924 Olympic winter games which concluded yesterday. That country won 48½ points. Norway came second with 39½, United States third with 11.

Charles Gorman of St. John, N.B., the sole Canadian representative, had been considered a dangerous contender but was unable to get a place in any of the events.

The first hockey match took place today when Sweden defeated Switzerland decisively 9 to 0. It was tame hockey compared with the Canadian big league games.

#### EARLY END TO STRIKE

Official of Union Expresses Confidence Objection Will be Removed

LONDON, Jan. 28.—The public is hoping for an early end to the railway strike as a result of negotiations which are going on. J. Bromley, secretary of the striking union, expresses confidence that something to which the men objected will soon cease to exist. Meantime the dockers and transport workers seem to be moving near a strike owing to a refusal to increase their wages.

BURNED AT DOCK WASHINGTON, Jan. 28.—Fire on the wharf burned the steamer Midland Waters and damaged the wharf and smaller craft, the estimated loss being \$500,000.
