NOTICE.

WHEREAS under the provisions of the Royalty Act, Chapter 76, Statutes 1914, the royalty on timber to be collected beginning January 1st, 1925, will, from information now available, be more than three times the royalty now being collected,

AND WHEREAS urgent representations have been made that this increase in royalty is much heavier than the industry can bear,

AND WHEREAS the representations made have gone so far as to say that any attempt to collect this royalty beginning January 1st next as upon the basis of the present Royalty Act would immediately result in a shutdown of the entire industry in the Province,

NOTICE is hereby given that a public hearing upon this question will be held in the Executive Chamber, Parliament Buildings, Victoria, before the Executive Council or such Members thereof as may be then present, beginning at 10 o'clock Wednesday, September 3rd next.

Anyone who has any evidence to submit or representations to make on the question of timber Royalties will be given opportunity to be heard and the public is requested to take notice accordingly.

FISHING BEER FROM BLACK RIVER BAY

WATERTOWN, N.Y., Aug. 18.—Not to be outdone by the "bottle fishermen" of the Atlantic coast, residents of the Black River Bay section west of here are taking great interest in attempting to retrieve portions of a truckload of Canadian ale which recently was dumped into the water at a certain point along the shore. Accidental hooking of a bottle by a fisherman led to the new sport, it is said.

PRIZE WINNER IN DAILY NEWS ESSAY CONTEST

"Save the Forests" Article Written by Cecil Hacker of This City

(Reprinted from Bulletin)

Canada is in the throes of a great crisis. If our forests fail before fire Canada will no longer be a land of hope but one of despair. People of Canada and visitors do not seem to realize this fact, or, if they do, they are acting in a shameless way. Spain, China and Portugal all failed to realize the value of their forests. Today they are suffering greatly for their lack of foresight. In the early days settlers burned the valuable hardwood forests and now we import hardwood. We will soon import all our lumber if we do not prevent the terrible destruction of our forest lands. Our timber is rapidly disappearing. Can we not save it?

What causes these fires? Lightning is the only unavoidable cause and is responsible for about one fire in five. Over eighty per cent of the fires are caused by human hands, and are therefore avoidable. The careless smoker causes many forest fires. He should never empty live ashes from his pipe and should be absolutely sure his matches are out before throwing them away. Passengers travelling on trains which go through forests should also follow this rule. Camp fires when left smouldering are frequently fanned by the wind and break into destructive forest fires. The camper should extinguish them with plenty of water if possible. Banking them with good sharp soil or sand is effective where water is unobtainable.

Carelessness in land clearing has caused much damage to forest. Clearing fires should not be started in hot, dry weather and even in the wet seasons should be watched carefully.

Great damage used to be caused by railways which ran through forest areas. Imperfect spark-screens allowed sparks to fly into the forest and start great fires. Careful inspection is now insisted upon and has reduced the number of this kind of fires. The land along each side of the railway tracks is now slashed and backfired and this has been a great benefit.

Thousands of tourists come to Canada annually to enjoy our beautiful mountain and forest scenery, our fishing and our hunting. The tourist revenue is third in the list of Canadian incomes and exceeds the value of our fishery products. If we burn our forests we spoil our scenery, kill our wild animals and drive our tourists away. This is like burning money. The trapper well knows this as a good catch of furs is not obtainable in burned forest areas.

In British Columbia alone six hundred and fifty billion board feet of timber has been destroyed. This would make sufficient lumber to build forty million six-room bungalows or five bungalows to every person in Canada. "Waste not, Want not," is a good motto.

Save the Forest. Canada expects this year every citizen to do his duty.

FEW BIRDS BUT MANY FLOWERS

H. Laing, Government Ornithologist, Tells of His Trip to Orient and Arctic

The results of his trip to the Orient aboard H.M.C.S. Thiepval were not entirely satisfactory to H. Laing of Comox, Dominion government ornithologist. Mr. Laing stated yesterday that, when the Thiepval went across, the season was too early for effective collecting and on the return there were only a few calls made and they were short ones.

Second only to Mr. Laing's interest in birds comes a botanical hobby, and in this he was more successful. He stored away many samples of plants and flowers and yesterday he was out rambling over Prince Rupert townsite where he got a number of specimens. At Nikolski, Behring Island, where the British plane was wrecked, he found what he described at a "botanist's paradise" rivalling the wild gardens of the Alps.

Mr. Laing expects to work next year in the Atlin district.

ODDITIES OF BROADCASTING

Many Questions Asked of Man Who Sends Out Air Messages

Not all of the thrills from radio come to the listener in, for the announcer of a broadcasting station gets his share also.

Here are some of the daily experiences of Howard I. Milholland, known to listeners simply as "HM," studio manager and chief announcer at KGO, the General Electric Pacific Coast Station.

According to "HM" the busy housewife makes frequent demands. Recently a woman phoned: "My husband just lost his suit case. His best suit, two pairs of socks and a shirt are in it. Please broadcast at once. How much will you charge?"

Another writes, "Dear 'HM,' will you kindly play jazz music tonight as we are going to have a wedding in the family?"

During the broadcast of a drama one evening "father" telephoned, "Please have your actors stop saying 'dam.' My little girl is listening in and she repeats everything she hears."

And here is a letter which is not quite clear to "HM." "My brother is away in the mountains. My cousin has just passed away, and if you broadcast it he will hear you as he took his radio set with him."

Offers Thanks

Numerous letters and telephone calls are received at KGO from people who have lost contact with friends and relatives, or have lost a dog, cat, or some other pet. "My little girl has lost a pet Airedale," writes a mother. "She has never been very strong and she cannot play like other children. The dog was her only pal. She keeps calling for him night and day. If you will please broadcast for me I will thank you ever so much."

Then there are requests for certain kinds of programs. A California highway construction foreman, employing convicts for roadwork recently sent in a request. "Please play more classical music," he wrote. "Members of the 'grey walled fraternity' from San Quentin penitentiary here are fed up on jazz. They would like to have you play a selection from Lohengrin.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for wharf repairs at Port Simpson, B.C., will be received at this office until **12 o'clock noon (daylight saving), Thursday, September 4, 1924,** for the construction of repairs to wharf at Port Simpson, Skeena district, B.C.

Plans and forms of contract can be seen and specification and forms of tender obtained at this Department, at the office of the District Engineer, Old Post Office Building, Victoria, B.C., and at the Post Offices, Vancouver, B.C.; Prince Rupert, B.C.; Stewart, B.C., and Port Simpson, B.C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to 10 per cent of the amount of the tender. Bonds of the Dominion of Canada or bonds of the Canadian National Railway Company will also be accepted as security, or bonds and a cheque if required to make up an odd amount.

NOTE.—Blue prints can be obtained at this Department by depositing an accepted cheque for the sum of $10.00 payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order,
S. E. O'BRIEN,
Secretary.

PRINCE RUPERT BEAUTY CALLOUS

George Valiquette, of Ottawa, an Enthusiastic Moving Picture Man

George Valiquette, the young moving picture man of Ottawa, who made the voyage to Japan and back again on the H.M.C.S. Thiepval, is a firm believer in the theory that the people of Prince Rupert and British Columbia in general have become calloused to the picturesqueness and beauty of their surroundings.

Almost everywhere Mr. Valiquette looks he sees something that would be of interest to motion picture audiences the world over. He did a good deal of "shooting" around town yesterday and, incidentally, got a little more atmosphere for his record of the British world flight.

Besides his moving picture business, Mr. Valiquette is an enthusiastic Kodak fan and, as a result of the trip, he has a collection of pictures that are an education in themselves. He has views depicting the geography of the peoples of Japan, Siberia, Aleutian Islands, Alaska and many other places. He also has the only motion pictures in existence and probably the best "stills" of the wreck of the British airplane at Nikolski.

Mr. Valiquette intends to turn his wealth of material to account and will market his photographs as well as his moving pictures. Doubtless, through him, a part at least of the pictoral record of the Thiepval's voyage will find its way to Prince Rupert and the likelihood is that some local scenes will be embodied.

ONE YARD

Rastus was sporting proudly a new shirt when a friend asked: "Boy, how many yards does it take for a shirt like that?"

Rastus replied: "Say, man, I got three shirts like this out one yard last night." — Everybody's Magazine.
