est Thing in the World For Delicate Girls"

Mrs. John Bennett, Boggy Creek, Man., writes:

My little girl had organic nervous trouble, could not sleep, had headaches and fainting spells. This went on for three years, and three doctors helped her very little. After reading of what Dr. Chase's Nerve Food had done for others, I got some for her. She is now so well that she is like a different child. She is fourteen years old and looks the picture of health.

"We have used Dr. Chase's Nerve Food for different members of the family, when recovering from "flu" and scarlet fever, and it has always helped them."

NO KICK COMING

"I just stepped in to tell you," began the man at the complaint desk of the gas company, "that my gas stove blew up yesterday."

"Tell your troubles to a plumber," growled the surly clerk. "That's no fault of ours—you got no kick here."

"Oh, I'm not kicking," replied the customer, cheerfully, as he opened the door. "Only I thought I'd tell you that your blamed old slot meter backfired at the same time, and I haven't been doing anything but pick up silver quarters all over the cellar ever since. Good day!"

JAP ORANGES DUE FRIDAY

Will Open at 90c Per Box—Potato Price Will Soon be Going up and Now is Time to Buy

The first shipment of Jap oranges for the local retail market is due to arrive in Prince Rupert on the Union steamer Venture Thursday evening and this popular Christmas fruit will be offered for sale in the stores on Friday morning. The opening price will be about 90c per box. The first shipment in Vancouver is already sold up so it is likely the opening price will hold until the next shipment from the Orient arrives—about December 10.

The potato market is going to be higher in the very near future and it would be well to lay in a supply against winter requirements right now. The southern potato market is very firm and advancing and visible supplies here are far short of what is needed, cold weather preventing shipments from the interior for the next two or three months.

The lard and smoked meat markets are very firm with indication of further advances.

For American Thanksgiving this Thursday, local fresh killed turkeys and geese are expected from the interior.

Tea is Cheap

Tea is still cheap. As a matter of fact, the cost of a cup of tea or a whole year's tea for the average family is a long way below the point where it could be classified as being a luxury even now. When from two to three hundred cups can be obtained from a pound of good tea costing say 75c, the cost cannot be said to be unreasonable or prohibitory. Tea prices have advanced 12c per pound in the past sixty days. The commonest tea costs the wholesaler 50c per pound today in large quantities. This is just about the highest price on record.

Canned meats, especially corned beef, are advancing and dried fruits continue to strengthen up. Rice, sago and tapioco markets also have an upward trend.

This week's market report, containing several new varieties of winter apples, is as follows:
