## CHINA HAT IS ACTIVE PLACE

Natives at That Village Making Good Progress: New Temperance Society Formed

CHINA HAT, March 13.—This village has witnessed many interesting activities during the past few months.

Last fall when the native people returned from the canneries the project of a new Community Hall was commenced. Now there stands in full view of the harbor a fine building, roofed and being finished inside. When completed it will be worth \$1,500.

A year ago a suggestion was made by some of the leading men that the church bell which has been in use many years be presented to the day school and a new one be purchased for the church. A subscription list was opened. Five hundred dollars have been collected and a splendid bell, weighing four hundred pounds is being ordered. An inscription will be placed on the bell in the name of "Klemto Church" and the following names will represent the people: Chief Philip Brown, Chief Richard Collinson, Chief James Carman Starr and Rev. George Edgar.

A very successful Christmas tree was held at the end of December and a Christian feast was enjoyed in place of the old pollack feast from which the people here have entirely departed.

The people beyond had not been forgotten, about \$150.00 is in hand toward the Annual Missionary givings.

There has been a great renewal of spiritual life among the young people and the services which they hold are full of interest.

### Temperance Society

To offset the temptations which are being presented to the people by the Government in the sale of liquor, a Temperance Society has been organized, and there are now 47 members. This was done upon the occasion of a visit made to the village in November last by Rev. W. H. Pierce of Port Essington. The members of this society undertake help in time of sickness or trouble in the homes of the people.

Miss Flora Robinson, who was born in China Hat and educated at the residential school, Alert Bay, is now in charge of the day school. Very efficient work is being done and the children present a tidy appearance. They are also very industrious in their studies.

The Rev. George Edgar and his devoted wife are real leaders among the people of the village.

Albert Farrow, steambot inspector, arrived from Vancouver on the Prince George yesterday afternoon.

## AN AWFUL ATTACK OF PIMPLES ALL OVER HIS FACE

Pimples breaking out on the face and other parts of the body is a sure sign that the blood is not in proper shape.

While the skin is the object of the attack the real seat of the disease is in the blood on account of the entire circulation being poisoned.

Burdock Blood Bitters quickly and effectually banishes pimples and all other skin diseases as it goes right to the root of the trouble by cleansing and enriching the blood.

Mr. Conrad Anderson, Kelfield, Saskatchewan, writes: "A year ago I had an awful attack of pimples. They broke out all over my face and I could not get rid of them in any way. One day a friend told me about your Burdock Blood Bitters and let me have a bottle he had to spare. After using it I noticed a change, so I bought three more bottles, and now I don't know there is such a thing as pimples."

## Sport Chat

Golf has been adopted as a major all-year sport for the high schools in San Francisco. The game will be put on trial for a year but its proponents declare it will never be taken from school competitions now that it has been established. Already several hundred high school boys and girls are playing regularly on the many courses in and around the city. The first interscholastic golf tournament in San Francisco is planned for May but it is expected that future tournaments will be held during the winter, the slack season for other sports. With the entry of golf as a major sport in the high schools, some sport authorities estimate that more than 100,000 inhabitants of San Francisco will soon be playing golf or tennis, the

It is claimed that golf is particularly valuable as an organized high school sport because boys and girls, no matter of what size or physical strength, can participate. The experiment being tried in Frisco, marks the first time that preparatory schools or any institutions have developed a competitive sport which permits the entire student body to take part. Unlike baseball, football, basketball and track events, golf has in San Francisco an all-year vogue and it can be played practically every day. It is the one universal game. It should be an ideal school sport because all pupils and all classes can play on equal footing. In golf even the novices get deeply interested from the start and they derive great benefit.
