DAILY EDITION

What Shall We Do During The Winter?

HONE Thursday, Sept. 25, 1924.

The long winter is facing us and it may be a dreary time they brought away the game of with nothing to do but look forward to spring. It also may be golf and the civilized world has the most enjoyable and instructive time of the year when the long winter evenings may be utilized to great benefit.

This is the time to plan the winter program. It is evident that activity is desirable and that it should be some greater ac- be good at planting nuts. I think tivity than simply attending social events. Some definite pur- I shall have to import a few grey pose might well be achieved without interfering with the work that is being carried on during the day time.

Learn Something Of Definite Character.

This is a good time for the young men or young women to doom of civilization within a very learn something of a definite nature. Some will study music. few years and yet the poor old Others will possibly perfect themselves in English or make a world carries on much as usual study of French or some other langunage. Art work, mechanics, only a liftle better all the time. radio or electrical studies all offer fields for research or for developing the faculties.

So far there has been no announcement in regard to whether has been exploded for this fall she is taking water freely but there will be a night school conducted under the auspices of the what are we going to worry her pumps are quite able to over- other mines have since been school board. Even should this not be done there are corres- about? pondence courses, private tutors and much study may be carried on without any of these means. The library lends aid to those anxious to study and the services of the librarian are always THE MENACE OF open to them to help in the selection of books.

Aimless Life Leads Nowhere.

The aimless life leads nowhere. Sports and games will engage a great deal of the attention of many and others do evening SHUT DOWN OF MILLS WOULD work to help augment their incomes. Purely cultural subjects do not receive as much attention today as they should. There are so many calls on our time that we cannot get down seriously to work.

Second Language Helps A Lot.

Learning a language other than our own is a valuable means gration of skilled labor from this rangements to proceed to Engof cultivating the intellect. It has been said that no person province is causing the authori- land to join the Navy. knows the English language until he knows at least one other ties serious concern. language. We learn very largely by comparison and no one quite appreciates the intricacies of English until he has learned to maintain the quality and how it translates into French, German, Spanish, or some other quantity of its skilled labor suplanguage.

Make Our Homes More Beautiful.

Efforts to make the home more beautiful are always in ish Columbia, which gave direct Competition Commences to Deorder. Making wash day pleasant-

Just use Rinso where you used to use bar soap-for soaking. boiling, or in your washing machine.

THE hardest part of wash-day, rubbing, rubbing, rubbing, has given way to the new method of soaking the clothes clean with Rinso. This wonderful new soap gently loosens the dirt and a thorough rinsing leaves things white and glistening as you never could get them before.

Only spots where the dirties groundin, such as neck bands, cuff edges, and the like need a light rubbing. and a little dry Rinso subbed on these spots quickly makes the dirt disappear.

> Rinso is sold by all grocers and department stores
