SWIMMING CLUB ASKS FOR AID

Requests City Council for Financial Assistance in Work at Salt Lake

The Prince Rupert Swimming Club had a request before the city council last night asking for financial assistance in connection with a program of improvements planned for the Salt Lake.

A letter from A. A. McEwen, secretary of the club, stated that it was the intention to reconstruct the floats, make an enclosure for non-swimmers and children and repair the dressing rooms. In view of the fact that the provincial government had acquired the property for the benefit of the city, the club felt that it was entitled to a generous amount of assistance. The funds of the club were inadequate to carry out the much-needed work which would be of general value to the citizens.

Ald. Macdonald again brought up the matter of establishing a pond on the Acropolis Hill from the overflow of the reservoir. He asked the finance committee to consider this while dealing with the reqhest of the Swimming Club.

Swedish women, considering the question of physical culture, have reached the conclusion that their aim should be primarily the development of grace, beauty and form. Women should direct their physical energies not toward distance or time or the vanquishing of a competitor but rather to fine and noble performance. To promote these ends there has been organized the Women's Central Association for Physical Culture. Experts say that jumping, long distance running etc., will be discouraged for women and that stress will be laid upon javelin throwing, the discus and suitable ball games. The Association is considering the question of Athletic costumes for women and is seeking a design that shall combine practical qualities with beauty and attractiveness.

Winter sports are flourishing in Switzerland this year and as a result the number of winter tourists has reached a total of 16,000, six thousand more than last season. The visitors include 4,000 Germans, 2,000 English and 750 Americans.

The weather has not been very favorable for curling at Prince George recently but the draw has been made for the remaining three competitions that will have to be played off before the close of the season. The games will start as soon as the ice is in condition. The trophies are the McCulloch Shield and medals, the Curling Club medals and the Simons trophy. The Bank of Commerce cup competition is still going on with the Dupe rink leading the thirteen others in the standing.

CONSTANT HEADACHES AND DIZZINESS

It is hard to struggle along with a head that aches and pains all the time, and in nine cases out of ten the persistent headaches are due to some derangement of the stomach, liver or bowels.

Undoubtedly the cause must be removed before permanent relief may be had.

Burdock Blood Bitters removes the cause of the headaches, as it acts on every organ of the body and strengthens, purifies and regulates the whole system.

Mrs. Peter Curran, 27 Morrison St., Sydney, N.S., writes: — "I have been troubled for the last five years with constant headaches and dizziness. After trying several remedies, which I found to be of no avail, Burdock Blood Bitters was recommended to me.

B.B.B. did me a world of good, and I cannot praise this remedy enough."

TIDAL WAVE DESTROYED SITE BERNHARDT GRAVE

PARIS, Feb. 12.—Sarah Bernhardt desired her remains to be taken to her summer home on an island off the Brittany coast for burial in a rock that she had chosen for her tomb.

It is fortunate that the actress' intention was not carried out, for the recent tidal wave and storm which devastated the French coast tore the rocks which she had selected from their place, and strewed them along the sea shore.

BETHLEHEM HAS A THRIVING INDUSTRY

LONDON, Feb. 12.—Bethlehem is the centre of an industry in mother-of-pearl, which supplies beads, rosaries, inlaid work, carvings and miscellaneous ornaments or souvenirs to all parts of the world, says the Board of Trade Journal, quoting the Palestine Commercial Bulletin.

The industry employs about 500 people who do most of the work by hand. The raw material is largely waste imported from American button factories, and shells from other countries.
