BOY'S BAD COLD TURNED TO BRONCHITIS

The frequency with which bronchitis develops into pneumonia is appreciated by very few mothers. The danger of pneumonia is, probably, well understood too, but how many mothers take into consideration that a neglected attack of bronchitis frequently leads to this dangerous disease.

We would advise all mothers to give their children Dr. Wood's Norway Pine Syrup the first moment they show any symptoms of a cold or cough, as by doing this they may save them from an attack of bronchitis or pneumonia.

Mrs. Lawrence Quick, Sandwich, Ont., writes:—"My little boy, six years old, had a bad cold which turned to bronchitis. I tried everything I thought would be best for it, but did not see him getting any better. I was told to try Dr. Wood's Norway Pine Syrup, and after giving him two bottles he got wonderful relief. I cannot praise it enough."
