According to a recent official compilation, out of every 100 people in Canada 51 live on farms. The 70,000 farms in Canada represent a gross worth of \$700,000,000 or about \$10,000 per farm, and produce an annual revenue of nearly \$1,500,000, an average income per farm of \$2,000 yearly.

From the opening of the crop year, September 1st, to the official closing of navigation, December 12th, the Canadian Pacific Railway reported the heaviest marketing of grain since the inception of the road. Cars loaded by the company also created a record for the season, having numbered 116,232. Grain marketed topped the 200,000,000 bushel mark.

Thirty-seven per cent of all automobiles in Canada are owned by farmers. Ownership of the balance, according to recent statistics, is made up as follows: business men and brokers, 16 per cent; salesmen and travellers, 16 per cent; professional men, 8 per cent; laborers, 4 per cent; contractors and livery men, 3 per cent each, and miscellaneous and no occupation stated, 13 per cent.

When the Canadian Pacific liner "Empress of Canada" left New York on January 30th for her great round-the-world cruise, she was the first Canadian vessel ever to commence such a voyage carrying a regular bookstall in the charge of experienced attendants, in addition to a free library. Of the total wheat exported from Canada in November, amounting to 64,16,993 bushels, by far the greater proportion went to the United Kingdom, which took 43,15,391 bushels. The United States was second largest importer of Canadian wheat, taking 9,010,143 bushels. Italy came next, taking 4,013,123 bushels, and Greece next, with 2,953,180 bushels. In the keenest competition, embracing entries from all important agricultural districts of the North American continent, Alberta farmers won 43 prizes at the recent international stock and grain show at Chicago. Two grand championships—wheat, Major G. H. L. Strange and oats, J. W. Bigland—went to the province. Major Strange was also first with white field peas and Nunemacher Brothers, of Brooks, first with red clover seed. Major Strange's success is especially remarkable as he has only been a farmer four years.

Children Like Pacific Milk

That children like Pacific Milk and thrive on it has been demonstrated by a mother on Twelfth Avenue West. The boy of 4 years and girl of 7 are pictures of health and strength. They have Pacific Milk on porridge every morning and it was the only food the boy could assimilate when he was an infant in arms.
