DAILY EDITION

Monday, January 7, 1924.

Duthie Lives Up To Promise.

J. F. Duthie, the Seattle capitalist, who stated last summer lace. when he sold controlling interest in the famous mine on Hudson Bay Mountain that he would spend the proceeds by further investing in this district, is apparently living up to that promise.

Prince Rupert comes now to take even more interest in him since the announcement was made Saturday that he had bought three sections of townsite property. The proce reported was tertained Mr. and Mrs. W. E. R. low but it at least shows that Mr. Duthie has confidence in the Hungary at dinner last night. future of the city.

The fact that the moribund holding company has disposed of the property to a real live business man will be gratifying to the city as a whole though it is not expected that Mr. Duthie has anything more definite in view at this time than speculation.

Prince Rupert Is Logical Site.

It is but logical that Prince Rupert should be chosen as the Prince Rupert will entertain dissite for the Department of Marine and Fisheries' Pacific Coast linguished visitors on the acpractical biological station. Being the centre of all British Col- casion. umbia's fisheries, there are assembled here the majority of the producers besides many handling interests. The port is also more convenient to the natural element of the fisheries which is an He has been in Victoria for the Balance of Profits carried forward important consideration.

While a biological station may not mean a great deal from to his contract up the line. a construction standpoint of the number of employees it will possess, it should prove a further attraction to various fishing interests and will also be of much advertising value. The placing of such a station here is an acknowledgment of Prince Rupert's position of importance as far as the fisheries are concerned. The appointment of a local man to the biological board was a similar acknwledgment.

Board of Trade Valuable Body.

The reading of an annual report of a Board of Trade president brings home to the average citizen the importance of the work that is being carried out by that organization not only for the benefit of its own businessmen members but for the community and district at large.

The efforts of the Prince Rupert Board of Trade during 1923 Badminton Club in Assembly have been diverse indeed and have been resultant in no small measure of results. The organization has functioned in a manner that no other body has done and its work has been very essential. Without the Board of Trade Prince Rupert might not On New Year's eve Mr. and possess many things today that she has. It is an institution that Mrs. H. H. Little entertained the Reliway and other Bonds, Debentures and Stocks, (not may not be appreciated very greatly while it is alive but once let Badminton Club and the New call and Short (not exceeding thirty days) Loans in it die and it would be greatly missed.

While there was a large increase in membership of the board crackers, etc. last year, there are still many persons in the city who are deriving | Robt. Langlands left on Satbenefit from it but are not contributing very materially to its up-jurday night for Edmonton where keep. The citizens of Prince Rupert should be solidly behind the he will visit his son William. Board of Trade and the best way of showing support is by joining He was accompanied by Leonard it. The larger its membership the greater will be its influence Wrinch who is returning to col- Current also.

The most of the members consider their yearly fees money very well spent--productive of indirect returns in a measure that far exceeds the investment.

Ketchikan Paper Shows Its Hand.

While the Ketchikan Chronicle defends the 2c tariff on Can- H. M. Beech of Ottawa, one of adian halibut entering the United States and says that the tariff the few men who stayed with has been of much benefit to the American fishermen, it is still mining in the Omineca district, reported here that the same American fishermen are agitating arrived in town the first of the strongly for removal of the tariff. Suggesting that the American fishermen will still further benefit if the Poindexter amendment, Mrs. A. E. Falconer successcompelling all fish to be shipped in bond from an American port, fully underwent an operation at year. is put into effect, the Alaska paper goes on with its campaign the Hospital on Wednesday and which, after all, it seems is for the sole benefit of Ketchikan is on the road to complete re- notice have been within the powers of the Bank business men.

How the Alaska paper believes that the elimination of the Old-Timers will be glad to port of Prince Rupert as a shipping point for American fish can learn that Jack Austin has rebenefit the American fishermen seems difficult to understand. In turned to the north and was fact, the general belief here is that Ketchikan does not believe opened an assay, office in Smith- Montreal, Canada, 26th December, 1923. that such would benefit American fishermen. To back that as- ers where he will devote his time sumption, we have the statements of American fishermen them- to assay work for the Federal Balance of Profit and Loss Account, 30th November, selves on the question. A significant point in the course of the recent discussions on the closing of the port of Prince Rupert to American fishermen was the opposition of members of the Deap Sea Fishermen's Union to the measure on the grounds that it would be working a hardship on American fishermen.

White a community is to be admired in working for its own interests, that admiration is lessened when an attempt is made to injure a certain section of its citizens for the benefit of another.

It is not with a view to benefitting the American fishing in- A son was born to Mr. and Salance of Profit and Loss carried forward dustry that a resolution went forward from here recently to Ot- Mrs. T. Walsh of Doreen on tawa asking that the port be closed to American fishing vessels, December 27, at the Hazelton even if Ketchikan does tell us that would be the effect.
