WHEN THE BABIES
ARE CUTTING TEETH
THE MOTHER SHOULD USE

During baby's teething time, especially in the hot summer months, the bowels become loose and diarrhoea, dysentery, colic, cramps, etc. manifest themselves; the gums become swollen, and cankers form in the mouth.

This is the time when the mother should use "Dr. Fowler's," and, perhaps, save the baby's life.

Put up only by The T. Milburn Co., Limited, Toronto, Ont.
