

*For every wash-day method*

RINSO is ideal for any wash-day method you use. You do not have to change any of your usual steps—just use Rinso where you used to use ordinary soap.

If you like to boil your white cottons, Rinso will give you just the safe cleansing suds you need in the boiler. If you use a washing machine, follow the advice of the big washing machine manufacturers—use Rinso.

Just soaking with this new kind of soap loosens all the dirt until a single rinsing leaves the clothes clean and spotless.

However you do your wash, make it easy by using Rinso.

*If you use a Washing Machine, soak your clothes in the Rinso suds as usual. In the morning add more Rinso solution and work the machine. Then rinse and dry—you will have a clean sweet snow-white wash.*

*Rinso is sold by all grocers and department stores*

## BUILD HOTEL OVER AND AROUND CHURCH

**Auditorium to be Preserved but Two Million to be Spent in Additions**

NEW YORK, April 16.—A fifteen-storey hotel and church will soon be built around and over the old Calvary Baptist Church on West Fifty-seventh street, while the congregation will continue to sit in their accustomed seats Sunday after Sunday. The contractors have announced that the wings which form the main part of the hotel and the roof can be brought into being without interfering with the use of the auditorium.

The magnificent auditorium of the present church will remain as it has been since the church was built over 70 years ago, but the present gallery will be enlarged and a second one constructed so that the seating capacity of the new church will be 4,000. Wings on either side of the present church, and 12 storeys immediately above it will be built and leased for operation as a hotel for Christian people.

Cost of the improvements will be about $2,000,000, but it is expected that the hotel will turn in enough rental to the church to enable it to considerably widen its scope of activities.

A radio broadcasting station, "the largest in the world," according to Dr. John Roach Straton, pastor of the church, will be one of the features of the new building.

## TELLS OF BRITISH COLUMBIA'S HOUSE

**Premier Said He Tried to Buy it From B.C. But Could Not do so**

In discussing the purchase of the home in London for the Canadian High Commissioner, Premier Mackenzie King said:

"I might mention that there are also in London at the present time offices of the provinces of Canada. The province of Nova Scotia has finer offices for its agent than has the Dominion for its High Commissioner; and British Columbia has a building which is infinitely superior to ours. Indeed, when we sought last year to purchase their building from the government of British Columbia for the Dominion of Canada we could not acquire it. A stranger visiting London today and knowing little about Canadian affairs might think, from the accommodation enjoyed by the respective governments, that Canada was a part of British Columbia instead of British Columbia being a province of the Dominion. When we tried to acquire from that province the building which is owns in London we discovered that the provincial government had found it so good an investment, notwithstanding that it was a very large building, that the province refused to sell it."

## USING MINNOWS TO DESTROY MOSQUITOES

OROVILLE, Cal., April 16.—Butte county, in central California, has employed Gambusia minnows to destroy mosquitos. These tiny fish placed in irrigation ditches, ponds and lakes, eliminate the mosquitoes at their breeding places. Mosquitoes had become a nuisance in this region, but since the minnows were planted the pest has diminished rapidly.
