AND WHEREAS urgent representations have been made that this increase in royalty is much heavier than the industry can bear,

PRINCE GEORGE

Sir Henry Thornton spent three hours here on Friday morning. The railway president was met by representatives of the Board of Trade and city council and asked to give adequate consideration to the establishment of a British Columbia connection into the Peace River Valley.

Arthur Dixon, resident engineer for the provincial department of public works, left on Saturday for Victoria going out by way of the Quesnel road.

The officers and members of Nechako Lodge, A.F. & A.M. held their annual picnic at Six-Mile on Wednesday afternoon. There was a large attendance of members of the craft and their families.

Delegates of the farmers' institutes of this district at a meeting last week decided that there were not enough cattle in the district to warrant the establishment of a creamery at Prince George.

A strongly worded protest against the delay of the government in completing the road from Quesnel to Prince George has been drawn up by the city council and will be submitted at the annual convention of the Good Roads League of B.C.

OUT AFTER BUSINESS FOR PORT OF VICTORIA

VICTORIA, Aug. 11.—At a meeting of the chamber of commerce the question of a harbor board for the port was discussed. Some favored the appointment of a board with limited powers while others opposed it as likely to lead to a condition similar to that obtaining at Vancouver where the harbor charges were very high. It was shown that at present Victoria had the advantage of a dollar a ton on average cargoes.

The matter was allowed to drop after a number of members had expressed themselves. It was, however, the general opinion that there should be someone appointed to go out after business for the port.

WARM MOIST WEATHER IMPROVES CROPS IN PRAIRIE PROVINCES

General conditions in the Prairie Provinces have been improved by cool weather and rains over practically the whole area, says the Bank of Montreal report. With favorable weather, harvesting should begin in two or three weeks. In Quebec province ideal growing weather has greatly improved conditions. In Ontario conditions throughout continue favorable and recent rains and warm weather have benefitted all growing crops. In the Maritime Provinces rain is needed and the condition of crops generally is fair to good. In British Columbia rains throughout the province have benefitted roots and pasturage materially.

TOWED HIS FRIENDS INTO KETCHIKAN

Linden Pentz When on Way From Here Was Delayed Helping Other Craft

Telling of that part of his trip from here to Ketchikan after coming all the way from Seattle with his wife and infant and goat in a sixteen foot boat, Linden B. Pentz told the Alaska Chronicle that it was intended to make the run from Prince Rupert to Ketchikan in two days. In Prince Rupert, however, the Pentz personally conducted tour was joined by four young men from California who had been experiencing trouble with the engine in their boat and requested that they be permitted to proceed to Ketchikan in company with the Pentz craft. A stop was made at Cape Fox for the night and in the morning the two parties started off in high spirits expecting to be in Ketchikan by night. The Californian's engine stopped on them when between Tree Point and Mary Island and refused to move further so Pentz gave them a tow line and kept right on for Ketchikan.

They were forced to stop at Mary Island because of the late hour the paper said, but it must be admitted that it is some towing for an open boat with an outboard motor, in those waters, and speaks well of Pentz's confidence in himself and his vessel.
