Are We Behind Oliver's Fight?

If Oliver is beaten it will mean that British Columbia is not in earnest about the reduction of freight rates. At present there is discrimination against the West and Oliver is the only man who has ever shown any fight in regard to the matter. If the people support him it will show the Ottawa Government and the Railway Commission that we mean business in regard to this matter.

It is known everywhere in the East that the freight rates fight is the chief reason for appealing to the people at this time. It is necessary to show the rest of the country that the people are behind the premier. If they are not, it means to the outside world that they do not want the freight rates equalized.

What Does It Mean To Prince Rupert?

What does an Oliver victory mean to Prince Rupert? Irrespective of political bias and affiliations, it means that if we get equalized freight rates, the grain from Saskatchewan can be shipped through this port, using the new elevator which is to be built. If Oliver is turned down it would seem to show that Prince Rupert cares nothing about an elevator or the shipping of grain by this route. It would also seem to indicate that we do not want the elevator for the elevator would be of no use without the grain business.

Candidate Stands For Same As Leader.

A political candidate stands for the same policy as his leader. It is useless for him to say he will do this or do that. If he accepts nomination from the party and takes the party funds for his election, he is tied by the policy of his leader. In this campaign Mayor Newton is the Bowser candidate and T. Ross Mackay is the McRae candidate. Bowser stands for the interests of the south and the group that nearly put Prince Rupert off the map prior to the advent of the Liberal Government at Ottawa. They are the same people. Tolmie and Stevens are working for them and they stand for everything that is opposed to Prince Rupert. To vote for either Newton or Mackay is to vote against the interests of this city, and that is one thing we cannot just now afford.

Vote For The Place In Which You Live.

Voters have this to remember at the present time. If Prince Rupert is not supported on the outside, we shall all have to leave and start life again elsewhere. The Liberals are the ones who have supported the claims of this city. The Court House was built by the Oliver Government and the grain business will come if we support the same group. If we vote against them we do not deserve to have any grain business.

"I was Greatly Distressed With Pains in the Back"

Mr. Alfred McNeill, Chapel Rock, Alta., writes:

During the winter of 1920-21, I was greatly distressed with pains in my back and felt tired and depressed most of the time. Particularly during the night I was troubled with frequent urination, some nights having to rise almost every hour. I tried several different treatments without success, until finally I began using Dr. Chase's Kidney-Liver Pills, and they relieved my condition before I had finished the first box. I am feeling better this summer than I have for years, and although in my 67th year, can work all day without any undue fatigue."

WHY VOTE FOR OLIVER?

Aliee Arm, June 12.
Editor, Daily News:
Just one word before the curtain drops and I will try and convince you that there is but one last redeeming hope. We are to decide on June 20 whether we are for construction or destruction, and whether we are for equality of right or for the survival of the fittest. If we are for the former we will send Mr. Oliver back to Victoria to finish the task he has undertaken. If we are for the latter, then our choice must be Mr. Bowser or General McRae. Woe be to B.C. if we choose the latter.

Place the three men before you. Read carefully each line in their countenance and decide accordingly. You who do not take any interest in politics I know will decide in favor of Honest John. He is fighting a hard uphill fight for an unthankful public, but he is a fighter and, in his brave fight, he should have the support of every sane and sensible man and woman in B.C.

Why Support Oliver?

We should support Oliver because he is honest and sincere in his effort, because he is fighting the battles of the West against the East, and because he is trying to and will amalgamate the four western provinces to stand side by side in fighting the C.P.R. and the freight rate question. If he wins his fight what does it mean? It will mean that Vancouver will be one of the largest cities on the American continent. It will mean that the pioneers of that great Peace River country will have their wishes granted and that the fight that they have put up in opening up that great country has not been in vain.

To those who are voters in British Columbia, I will ask one fair question: Did the Conservative party of Canada or B.C. ever show any inclination to dispute the C.P.R. at any time on the freight question? If you say in answer that they have not, then I ask you one more question: Is it fair that the freight rate ought to be higher in the West than in the East? If you answer to this is "No," then I say to you, why vote a Conservative ticket?

Peace River Country

Is it the wishes of the common people of the east that their sons and daughters they have sent out west to open up and develop this great country should be discriminated against. Ask any eastern mother, be she Conservative or Liberal, that question, and see what her answer will be. Just think of the fine settlers that the eastern provinces have sent us and where they have gone. They have gone where they can get what we out West call at least an even break. Just think of the people that are leaving the Peace River country every day. Because they cannot make a living for their families. Now I ask you to name the man who is willing and will help them in their fight. If your answer is John Oliver, then I will say to you—Are you with your own people, or are you against them in their fight for right? Your answer will be at the polls on June 20.

If you believe in the survival of the fittest, you will vote for Bowser or McRae. If not you will vote for Honest John and let us have equalized freight rates and a united Canada.

Now, to you electors of the district of Atlin, one word. Who are you going to choose to champion our cause at Victoria? Who has fought our battles for the past four years? Has he kept in condition, is he worth another bet, and who is he? His name is Bert Kergin, ad he is of fighting Scotch-Irish stock. Let's send him back.

Support Bert Kergin

We should support Bert Kergin because he is one of us, because he is broad-minded and big, and because he has fought for our rights on the floor of the House as only a real man could. He has laid his cards face up and have you noticed he has got results. He is young, aggressive, and honest in his endeavor and he is the man we should support. Being a citizen of Alice Arm and of Atlin, naturally he would work for everything pertaining to its prosperity. No doubt there are some among us who are not with him. Why? Some envy him from a social standpoint. Some say he is not

big enough for the job. Some views of the local board and envy him because he has shown that as large delegations as possible be sent to the Victoria convention.

HOSPITAL MANAGER GOES TO CONVENTION

Will Attend Meeting of Hospitals Association at Victoria at End of August

The hospital board last night adopted a report from the executive committee recommending that Harry W. Birch, managing secretary, be sent to Victoria with expenses paid on August 28, 29 and 30, to attend the annual convention of the B.C. Hospitals' Association.

Communications notifying the board that the G.T.P. district was entitled to put in nominations for posts on the executive of the Association precipitated a discussion in which S. K. Campbell and other members expressed the opinion that the local district was too large to receive effective representation. Mr. Campbell felt that it should be divided in two. Important questions might face the north some time and then it would be advantageous to be well represented on the executive of the Association. He referred to the possibility of a home for incurables in the north being necessary some day. He also suggested that Prince Rupert might make a bid for the annual convention of the Association.

Mr. Macdonald felt that the number of the Association might be used towards obtaining more equitable government grants for northern hospitals.

Finally it was decided to instruct the secretary to communicate with every hospital in the north placing before them the

LAND ACT.

Atlin Land District, District of Cassiar.

Take Notice that Reginald Brook, of Atlin, occupation miner, intends to apply for permission to purchase the following described lands: Commencing at a post planted one hundred yards to the east of the mouth of Rupert Creek, one mile east of Golden Gate on Tagish Lake, thence south with the chains, thence west to shore line, thence along shore line to point of commencement.

What Tom Moore Says About the Oliver Government

The British Columbia Legislature is now leading Canada in the matter of legislation beneficial to the workers.

"It has the honor of being the first Province to give legislative effect to the 8-hour day convention of the International Labor organization, passed at the Washington Conference in 1919."

Extract from "The Canadian Congress Journal," February, 1924:

"Between 30,000 and 40,000 workers will benefit from the Hours of Work Act which comes into force New Year's Day, 1925."
