Dangerous Time From Fires Approaches.

Regardless of what political opponents may say, the lum- considered it was necessary to bermen of British Columbia credit the government with having get right down to the root to done much to improve conditions in the industry in this pro- eradicate the trouble in the vince. One of the most beneficial things done has been the keen world and that was the mind of fight carried on against loss by forest fires. At the fear of be- the child. ing thought over-careful, Hon. T. D. Pattullo, minister of lands, is again issuing a special warning to every citizen to be careful the present educational system of fire. He points out the extremely dangerous conditions already had been in force for a number existing and the probability of serious losses, in view of the fact of that the dangerous time of the year is only approaching, whereas already nearly 1,000 forest fires have occurred this year.

British Columbia

Attractive To Tourists.

Though pessimistic talk is at all times rampant in any coun- fact must be revolutionized. try, the optimist has the best of the argument in British Columbia. Considering the youth of the province, remarkable progress has been made and the development bound to occur during the speaking broadly and universally next ten years will be the talk of the commercial world. The and was not discussing any one Pacific Province has been especially blessed by a beneficient educational system in any par-Creator, and here are found all the essentials for success. This licular town or country but the UUILI year will be the biggest tourist year in history and more and more people are coming to British Columbia to spend their holidays. Climate, scenery and other attractions are all that could subject and the child should be be asked and transportation facilities are exceptionally good.

The roads of British Columbia are being improved rapidly and credit is given the department of public works for a road program that must place this province in the front rank. During this year many miles of new highways are to be constructed out of school and were dismisand the splendid system of roads will play a very important part sed by their teacher they let out in the successful development of British Columbia.

SPEAKS ON EDUCATION

H. S. Hurn Delivered Interesting Discourse Before Rotary Club Yesterday

That the system of present day education would necesarily undergo a great change in future and that new systems, which had proved their value in the upbuilding of the initiative and character of the men and women of to-morrow, were steadily and surely coming to the front, was the opinion expressed by retiring public school principal H. S. Hurn in his address before he Rotary Club yesterday afternoon, on the eve of his departlure for the south.

In opening his address the speaker said that a lot was heard about the bad situation in the world today-jealousy, greed and the like-and consequently people were running down the youth of the present day. In a way they were right because there was something wrong somewhere. Some people blamed the schools and the form of education and thought political institutions by reorganizing the senate or not or as to whether the Liberals or Conservatives were in power would not change industrial conditions. The same conditions existed in an countries and it was futile to look to the government for the trouble in the world today. The speaker thought the church in its present state had failed in its function in this respect. While na-1 ional science had developed immensely in the last 200 years, the study of the mind had not advanced at all. The speaker

Education Wrong

Some people said that while years nothing had been accomplished to this end. If it was desired to right the world one still had to go to the child not to the church. The schools and the educational system must be amended, must be changed in

When he discussed what was was wrong with the educational system throughout the world.

Subject and Child

The speaker thought that the taught in tandem. That was the Little More Than Routine Businew thought in education today. The authorities were beginning to think more of the child. He said that when children came "whoop" which denoted their pleasure in being released from service was implanted in mind. However, they were not allowed to act on their own init-

Mr. Hurn concluded by giving

Mr. Hurn for his address and future undertakings.
