

### Those New Odd Shaped WRIST WATCHES

Some people are afraid to buy them because they think they might not run as well as the common shape.

The difference, however, is mostly in the case and trimmings as the wheels and working parts are the usual kind.

We have a girl's rectangular gold filled 15 jewelled watch, which is a good time-keeper, as low as \$15.00 in white, green or yellow gold.

Other fancy shapes at the same price but we have others all the way to \$85.00.
