The Man in the Moon

SAYS:-

LIKE a woman's dress, short enough to be interesting but long enough to cover the subject, was the remark made at a public address here.

IF you want to be entirely free from germs, send your money to the laundry.

THE difficulty with sending money to the laundry is it always seems to shrink.

PRINCE Rupert is getting so busy it is difficult to cross the street at some hours of the day.

VERY soon we expect to see the city fathers solemnly sitting in state and discussing pains and penalties to be levied upon those unfortunate persons who do not know any better than to imitate the jay by taking the nearest route from corner to corner.

ONE remedy for a fit of the blues is a game of basketball.

ONLY those who have had experience can tell just how dull a social evening may be.

THE difficulty with some hosts is that they leave the guests to entertain themselves.

SOME hostesses entertain their guests too much and feed them too well and all they remember afterwards is the aftermath.

THE ideal hostess is one who refuses to let the guests have a dull moment while at the same time making them think they are doing as they wish.

FRIENDSHIP is a good investment. The more you give, the more you get.

WINTER is here, and the coal man

Smiles as he walks the street. What does he care for the cold blast?

He thrives on the storm and sleet.

Ah, who then would live in the southland?

The land of eternal sunshine? Yes, who indeed would there swelter?

The North and Prince Rupert for mine.

TIME was when talking was part of the trade of a barber. Now the flapper beats him to it.

COSTLY IN POLAND

WARSAW. — Poland is the most expensive country in the world in which to live, says the Journal de Pologne. The reason given is that nearly 50 per cent of the state expenditures are invested in unproductive armaments.

In the Letter Box

OBJECTS TO SEEING HIMSELF

Editor Daily News.

Your paper very often finds space in matters that may be interesting am therefore giving an account of what I have noticed in practically all eating houses, cafes or restaurants.

Ordinarily at home, if we are alone, we sit down in pleasant contemplation of the meal before us; or if we have a family or friends we are more or less attentive to those around us and eat.

But whether it is in consideration of the trade or merely a customary fitting in the restaurant business, I am inclined to raise the question whether a looking glass before every customer is really necessary.

With thanks.

MASSETT GOLD

Masset, B.C.
November 6, 1924.

Editor, Daily News.

Prince Rupert, B.C.

In reference to a letter appearing in your columns re the Graham Island Miners' Association, I consider it my duty to let the public know that it does not represent Massett nor Graham Island. If this association was formed to give authentic reports, as the secretary states, why does he say that a number decided to form the association when not more than six knew anything about it? Also he states that the P.B.C. Mines claim they are able to recover the gold when the principal owners and their present engineer claim differently and is it not a fact that they washed between sixty and one hundred tons and recovered less than an ounce of gold?

Is it legal for a mining recorder to use influence in float ing companies?

Ten Years Ago

in Prince Rupert

November 7, 1914.

Local Austrians are expressing sympathy with the Allies and today a letter is published from one of them congratulating the city on the departure of its first overseas contingent. "The British must win," is one of the statements made in the missive.

The hospital board at its meeting last night, on request of the physicians of the city, reconsidered its decision to dispen- se with three members of the graduate nursing staff on account of financial stringency and decided instead to effect general reductions in salary.

The body of A. D. Kidwell was found yesterday near the quarantine station on Digby Island. As far as the authorities can ascertain, deceased came to his death by drowning. He was a young man and is survived by a brother in Vancouver and a sister in Edmonton.

CHILDREN IN VIENNA

VIENNA.—The havoc wrought by the war in the birth rate in Austria is brought out forcibly in figures issued by the city school authorities of Vienna, showing 100,000 fewer children inscribed in elementary schools for the autumn term this year than in 1914.

TRAVELLED THE WORLD BUT 'Never Found Anything to Equal Zam-Buk'

MR. DAVIS
KANSAS CITY
U.S.A.

Mr. Henry C. Davis, a widely-travelled railway engineer, now of South 17th St., Kansas City, U.S.A., writes that he has found nothing in any quarter of the globe that compares with Zam-Buk for healing. He says:—"As a first-aid I have used Zam-Buk in innumerable instances for cuts, wounds, bruises and similar injuries sustained in my engineering work.

A REAL ANTISEPTIC HEALER.

"I also tried Zam-Buk for a rather common trouble in this country—skin poisoning by poison ivy. Disfiguring sores appeared on the hands, and other parts of the body after being in contact with the poisonous plant. Zam-Buk speedily cooled the affected surfaces, drew the poison right out, and healed my skin perfectly.

"Another time, whilst travelling, I suffered from a virulent outbreak of eczema, contracted through careless use of a public towel. I had medical advice and tried in addition, many special remedies without finding the hoped-for relief. Zam-Buk treatment took away all the pain and burning irritation, and quickly purified and healed the deep troublesome sores. It made my skin quite well."

ZAM-BUK FREE & POST-PAID.—The Proprietors of this wonderful herbal healer offer every reader a USEFUL SAMPLE BOX. Send request to-day to Zam-Buk Mfg. Co., Dupont St., Toronto.
