MANAGEMENT OF INDIAN MINES CHANGING HANDS

G. B. Turner Steps Down and Development to Proceed According to Advice in Davis Report

VICTORIA, May 12.—As a result of transactions being made by Toronto interests the management of the Indian Mines, one of the most promising properties in the Stewart Mining district, is passing into other hands. The announcement says that the position of consulting engineer will be given to a British Columbia man and that G. B. Turner will cease to act in that capacity.

Towards the close of last year the Indian Mine shares went as high as eighty-four, but with the fall of prices generally the stock went down to fifteen cents a few months ago. In an attempt to regain the confidence of the public a group of heavy shareholders secured the services of Angus Davis, government mining engineer for the Kamloops division, who was loaned to the company by the government. Mr. Davis examined the property. He believed that the property was worthy of considerable development.

The new interests are apparently prepared to carry on exploration work on a large scale, and to finance the scheme in a large way. Activity is expected in this direction immediately.

BRIDGE EXPENDITURE IN ATLIN DISTRICT HAS BEEN AUTHORIZED

VICTORIA, May 12—An expenditure of $35,510 is authorised by the Hon. Dr. Sutherland for the construction of nine bridges in the Atlin district. Most of these are consequent on large mining development that has taken place in the Portland Canal area. Of this sum $20,510 is to go to the construction of a suspension bridge at Alice Arm and $5,000 for a bridge across the Bear River. The new Stewart-Hyder road is to be gravelled for traffic. Other large authorisations are: $3,047 for a new bridge in the Cariboo district, $3,345 for work on the Port Clements-Tlell road on Graham Island.
