right hits and three errors. Harris scored a home run for Washington in the fourth with no men on bases. This was the first score of the game. New York got the three runs in the sixth inning, two of them, being on account of errors by Bruedge, playing short for Washington instead of Peckinpaugh, and Judge, first baseman. When the bases were filled in the eighth, Harris again made a hero of himself by poling out a tricky grounder which scored two runners and tied the

STRAITS SEITLEMENTS Election of Coolidge Not Sure but Likely Presidential Election

WASHINGTON, Oct. 10 .- (By Canadian Press) .- Survey of the political prospects the country over a month before the coming election, though it leaves much to be desired in the way of definite knowledge of what the veters will do, points to the election of President Coolidge or throwing of the election into the House. On the basis of the present conditions, John W. Davis, the Democratic nominee, does not seem to be a winner. The Republican leaders are strenuously claiming the election of President Coolidge as certain but the more astute of them are fearful of the strength of La Follette

in the west.

Coolidge at this time has the lead over Davis in the east. On the other hand. La Follette is strong in the west, in the country from the Mississippi to the Pacific coast. Opinion is divided toral votes in that country to make it impossible for Coolidge to win in the eletoral college and ! thus throw the election to the
