

SEVENTH
of the series dealing with the establishment of the
Bank of Montreal at representative points in CANADA
and elsewhere.

IN VANCOUVER AND VICTORIA

THE completion in 1886 of the Canadian Pacific Railway, a project that had received the moral and financial support of the Bank of Montreal, cast a bright ray of promise across the then somewhat troubled economic life of Canada.

Canada at last was spanned by rail from coast to coast, opening up for profitable development the fertile territory lying between.

The Bank of Montreal signalized the completion of the line by establishing a Branch at Vancouver and later at Victoria, thus completing its transcontinental chain of Branches and bringing to the Pacific Coast banking facilities essential to the successful development of the great economic potentialities there.

Of its 367 Branches, 53 are situated in the Province of British Columbia.

Here and There

Earnings of the Canadian Pacific Railway for the last ten days of March amounted to \$4,496,000, as compared with \$4,312,000 for the corresponding period a year ago. This is an increase of \$183,000 or 4.2 per cent.

Immigration to Canada during the eleven months ending February, 1924, totalled 135,128, divided as follows: British, 67,023; from the United States, 19,120; from all other countries, 48,992. This compares very favorably with 66,139 for the same period a year ago.

Forty pilgrimages to the famous shrine at Ste. Anne de Beaupre, Quebec, have already been arranged for June, July and August this year. Over 200,000 visitors are expected, most of them from Montreal, Toronto, Buffalo, Philadelphia, Chicago, New York and Boston.

Although it has already spent \$4,000,000 in drilling for oil in Alberta without very definite results, the Imperial Oil, Limited, proposes to keep at its development campaign, so F. J. Wolfe, director of marketing for the concern, states. Already the company's \$2,500,000 refinery at Calgary has had the effect of keeping prices down, he says.

An important industrial enterprise is being added to the list in Montreal in the plant of the National Cement Company, which is being constructed in the town of Montreal East on the site of one of the largest deposits of raw material for cement in Canada. The first unit of the plant will have a capacity of 900,000 barrels per annum.

A total of 969 communities in Alberta are now served by the Provincial Government telephone system. The total number of phones served in the system is 67,279, of which 32,280 are exchange phones, 20,252 are rural phones and 1,085 are private party lines and 13,385 are connecting subscribers. There are 264 exchanges in the province, with 301 toll offices and 62 private party lines.

The growing importance of Canada's trade in the Pacific is reflected in the official statistics of the Vancouver Harbor Board for the month of December, 1923, which shows a substantial increase in shipping in that port over the same month in 1922. Total shipping through the port amounted to 434,432 tons, valued at \$31,421,129, an increase over December, 1922, of 122,602 in tonnage and \$2,703,078 in value.

Judge F. McB. Young left on last night's train for Smithers where he will hear a County Court case involving theft from his mails at Francois Lake.

Miss E. M. Waldron, school teacher at Terrace, arrived from the interior on yesterday afternoon's train and sailed for Vancouver on the steamer Prince George.

During the year 1924, 96 arrivals and departures on the St. Lawrence route, with its different services, to be maintained throughout the summer months by its popular mono-class cabin and Empress class steamers, will constitute the Canadian programme of the Canadian Pacific Railway's steamships. A combined tonnage of 197,000 gross tons will be in operation on the Atlantic under the Company's flag, the largest amount yet assigned by a single line to steamship passenger traffic on the St. Lawrence route.

Canada's unfavorable trade balance with the United States is more than equalled by her favorable trade balance with the United Kingdom, according to trade figures of the Bureau of Statistics. For the year ending February, Canada's imports from the United States were \$603,000,000 and her exports to that country \$426,000,000, an excess of imports of \$177,000,000. As against this, Canadian exports to the United Kingdom were \$355,000,000, and the imports from Britain \$155,000,000, a surplus of \$200,000,000 on the side of exports.
