

"Worth \$100 to Me Relieved Eczema and Piles"

Mrs. Peter A. Palmer, Saltburn, Sask., writes:

"Dr. Chase's Ointment has completely relieved me of eczema and piles. I also used this Ointment for my baby, who broke out in eczema. A few applications were all that was necessary in her case. Dr. Chase's Ointment has been worth a hundred dollars to me,—before using it I had spent a great deal more than that in unsuccessful treatment from doctors. We have also used Dr. Chase's other medicines, the Nerve Food having restored my health after suffering from severe nerve trouble when a girl."

Dr. Chase's Ointment

INVESTIGATION OF NEWSPAPERS

Probe Being Made Into Methods of News Gathering and Especially Into Propaganda

"Probes" and investigations have been directed to many phases of human activity of late. Now it is the newspapers' turn to be placed under scrutiny. Through money furnished by the Laura Spellman Rockefeller Memorial Foundation a widely representative commission is already at work on a comprehensive survey of news sources, news gathering, propaganda, and of the entire news aspect of the American newspapers and influences that may affect them. The investigation is to be carried on over a period of two years and the integrity of American journalism will be ruthlessly tested.

The newspapers as a whole welcome such an inquiry by competent investigators. They have nothing to hide. But they do want the suspicion that hovers about newspaper production to be dispelled. Especially since the war, when "propaganda" became a term of reproach, has the good faith of journalists and their work been questioned. How many persons, often unthinkingly, have

Here and There

More than one hundred and fifty traders from the Far North arrived in Edmonton, Alta., recently bringing with them fur sales to the value of approximately \$500,000.

Tarzan Second, the largest wooden scow in the world, was launched recently at the Wallace shipyards, Vancouver, B.C. She is 1,000 tons burden and has 300,000 feet of British Columbia lumber in her make-up. The scow is to be used as a carrier for a great pile-driver for Sydney E. Junkins Company.

Two dinosaurs have been located in the Red Deer Valley, Alta., near the Canadian Pacific Railway line this summer, by the University of Toronto expedition, composed of four scientists who prospected for several weeks in the gorge and are packing up the prehistoric monsters for shipment to the Royal Ontario Museum. Another skeleton has been located by the Geological Survey of Canada.

One of the outstanding features of Canadian trade with the Orient during the past year or so has been the remarkable increase in wheat flour exports. Imports of Canadian wheat flour into Hong Kong in 1923 were the largest on record, showing an increase of 100 per cent in volume over those of 1922. The figures and values were: 1922, 79,585 barrels, valued at \$126,060; 1923, 191,821 barrels, valued at \$249,044.

Zane Grey, the famous novelist, recently caught a 758 pound tuna fish, constituting what is believed to be a world's record. The sea monster was successfully conquered after three hours and ten minutes of grilling endeavor off the Nova Scotia coast, and towed into Liverpool harbor. Mr. Grey's prize is a species of the blue fin family. The record before this catch was held by J. K. L. Ross, the well-known Montreal sportsman and financier, who caught a 710 pound tuna.

One of the most remarkable achievements in art printing yet produced in Canada and one which finally disposes of the idea that such work cannot be satisfactorily handled by Canadian firms is found in the new booklet issued by the Canadian Pacific Railway dealing with the forthcoming 1925 Round the World cruise of the company's steamship "Empress of France." The booklet contains 40 pages of text and color illustrations, the latter exquisitely combining many brilliant hues in a number of highly imaginative designs.

Canadian Pacific gross earnings for July totalled \$14,883,677 as against \$15,677,835 for the same month last year, a decrease of \$794,159. But in order to meet this reduction, operating expenses were reduced by \$1,963,686, those for the month being \$12,544,115, as compared with \$13,607,802 for July, 1923. Thus the net earnings for the month showed an increase of \$269,527 over those of the same month a year ago. For the 7 months of the year to July 30 gross earnings showed an increase of \$3,017,265; operating expenses an increase of \$1,924,013 and net earnings an increase of \$1,093,251.

WRIGLEYS After Every Meal

It's the longest-lasting confection you can buy—and it's a help to digestion and a cleanser for the mouth and teeth.

made accusations about doctored news and colored views? How many times have newspapers and news-gathering associations been stigmatized as the "tools" of this or that.

Such criticism has come to the ears of the great majority of newspaper editors and publishers, and because the great majority know the facts, they have not taken it very seriously. But that has not disposed of it. Such an investigation as that contemplated would do much to clear the air and reassure honest questioners. Unless the press has the confidence of the public it aims to serve, its usefulness and its field for public service are curtailed. While it may be true that one cannot believe all one sees in the newspapers, it is also true that newspaper editors do not willingly print that which they know to be false.

The public may have to be constantly on guard against propaganda, but they know nothing of the struggle of editors themselves against being made victims of it. The investigation spoken of will have served a highly useful service if it does nothing more than demonstrate that fact.

LIMBS OF A WOMAN FOUND NEAR LONDON

Remains Found in a Sack Between Ditton and Esher Following Previous Discovery

LONDON, Oct. 2.—That a woman was murdered in an unknown place by an unknown man and her dismembered remains secretly scattered appears to be the inevitable conclusion emerging from the double discovery of a woman's right leg and foot on Wimbledon Common on Good Friday, April 18, and of a woman's two thigh bones and two bones of the left leg on Thames Ditton Marsh last week by some boys who had taken shelter from rain among the undergrowth near the railway between Ditton and Esher. One of the lads, while picking his way through the thorns, saw bones sticking out of some sacking. He poked the bundle, and the sacking, which was nearly perished by exposure, fell to pieces and disclosed some more large bones.

There is no doubt that the right leg found on Wimbledon Common formed part of the same body from which were severed the bones found by the boys on the Ditton Marsh. This right leg, which has been preserved in spirits since it was picked up, had been sawn off by some unskilled person at the knee, and when the severed ends of the bones were placed together they fitted, and thus established the fact that they belonged to the same person.

The police are trying to find out who was the victim of this mysterious murder and mutilation. According to medical opinion, the murdered woman was about 40 years of age, and had suffered from an ulcer just above the right ankle.

STRIKES INCREASE IN JAPAN

TOKYO.—Japanese labor, growing in class consciousness, is becoming increasingly unruly. Official statistics compiled by the home department show that strikes were more than twice as numerous in the first half of 1924 as in the first half of 1921. There were 435 strikes involving 55,000 workers in the first six months of this year, as compared with 182 strikes involving 25,000 workers during the first half of 1921.

In the Letter Box APPRECIATES SERVICES

Editor Daily News.

I am leaving on tonight's boat for Vancouver and I would like to express my highest appreciation to the nurses and doctor at the General Hospital under whose charge I came. I have been here six weeks with stomach trouble arriving on the Thiepval from Japan after a six month's voyage. During the six weeks I have been here I have become my old self again and I felt that I could not leave without expressing my thoughts and appreciation to the nurses and doctor for their wonderful services and I would like to mention that the Prince Rupert General Hospital is one of the finest on the B.C. Coast.

Yours respectfully,
ERNEST SINCLAIR,
Royal Canadian Naval Reserve,
H.M.C.S. Thiepval.

GETS U.S. LOAN

OBERHAUSEN, Germany.—The municipal savings bank, acting as a trustee, has secured a one million gold mark credit from America for the local steel industry, it is reported. For the first year of the loan 13 per cent interest has been charged, while the rate for the second year will be 7 per cent.

FASHIONS & FOIBLES by Shirley Sharon

There is no end to the length or the popularity of the tunic blouse which is smart in printed or in colored silks.

The medium long tunic blouse which appeared at the beginning of the season in white crepe de Chine has grown with the weeks and is now a three-quarter length with a border scalloped in tomato red. These blouses are usually worn over a slip of the same material as the blouse, to give the effect of a two-piece costume. The blouse is often seen in printed silk crepe or crepe de Chine with a slip of plain color or in the combination which the French love, the dull with the brighter side of satin crepe.

CAR FERRY IS QUITE SUCCESS

Plies Between Zeebrugge and London Carrying Loaded Cars of Freight

LONDON, Oct. 2.—Throughout the past summer a steam ferry carrying loaded cars has been operated between Zeebrugge and this port and with great success. Business has steadily increased during the five months of operation and all new business is being kept.

At the annual meeting of the company operating the ferry, the chairman, Lord Daryngton, in the course of his address to the shareholders, said:

Since the opening date (April 24) the ferry service has worked without a hitch in all sorts of weather. During the severe storm at the end of July the service was maintained without accident or delay. The service has already proved its value for the conveyance of the type of traffic for which it was principally

GOOD NEWS FOR BUYERS OF COAL

Some fifty years ago a remarkable coal was discovered on Vancouver Island. This coal caused a sensation at the time and quickly established a reputation for greatest heat, very little ash, no clinker or rock. It was called Wellington coal. Many other mines have since been opened on the Island and the name "Wellington" has been given to them. But the public should not be confused. "Nanaimo-Wellington" coal has the reputation of being the best domestic or steam coal mined on Vancouver Island. The mine has an output of 3,000 tons per day which is surely satisfactory evidence as to its quality.

The public is cautioned against substitution and in order to make sure that they get the real "Nanaimo-Wellington" coal they should order direct from Albert & McCaffery, Ltd. who are sole agents for this coal in Prince Rupert. Their phone numbers are 116 and 564.

You can buy a ton or a sack. We have our own trucks and team and can give prompt service.

SKIDEGATE INLET

Dr. P. Freeman Size, a Calgary dentist, came in on the last boat and will make his home in Skidegate. Mrs. Size is with him. He is very well pleased with the place and will practice here.

E. S. Richardson returned home after spending several weeks on the mainland.

Mr. and Mrs. Peters arrived on the last boat from Detroit. Mr. Peters will stay with his mother, Mrs. Rapant at Till-el. He brought in a new Ford truck which he will use in freighting from Skidegate to Till-el.

People on the Islands are pleased to hear that Norman Watt has been appointed Government agent at Prince Rupert. Mr. Watt has been through the Islands several times and has a host of friends here and is well liked by everyone.

Cohoe trollers have been out fishing in Skidegate Inlet. Last week the high boat brought in 85 fish.

Miss F. Hebdon of the hospital nursing staff leaves on this afternoon's train for Terrace where she will spend a holiday.

intended, namely, rolling stock, machinery, silk, vegetables, cheese, and eggs and other commodities requiring quick transit with a minimum of handling. The fruit and vegetable traffic from Belgium and Italy has been very satisfactory, and the traffic from Zeebrugge has exceeded expectations. The produce carried has arrived in excellent condition, and the consignors have expressed great satisfaction at the higher prices they have realised. We have acquired wagons suitable for special export traffic, such as boilers, big castings, and the like. It will be a great advantage when manufacturers can load up for export orders heavy machinery on trucks at, say, Leeds or Sheffield for delivery from the same trucks at, say, Warsaw or Milan. The great argument in favor of a Channel Tunnel was the elimination thereby of all need for transshipment of goods from truck to ship at the English port, and from ship to truck at the foreign port. This advantage the ferry service affords.

The traffic between Zeebrugge and London and other destinations in England is working expeditiously. The time occupied at Harwich to take the loaded trucks off the steamer and to despatch them seldom exceeds thirty minutes. This affords a real testimony to the efficiency which the London and North-Eastern Railway Company are showing in operating the ferry service on our behalf. Messrs. Schenker, of Vienna, have been appointed principal agents of the service, and will act for the company in Europe.

Business Increased

From April 24 to 31 just over 100 loaded wagons were trans-

TIMBER SALE X 6528.

Sealed Tenders will be received by the District Forester, not later than noon on the 20th day of October, 1924, for the purchase of Licence X 6528, Fountain Lake, Kitimat Area, C.B. & I. to cut 733,000 feet of Hemlock, Balsam, Cedar and Spruce sawlogs.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, or the District Forester, Prince Rupert, B.C.

LAND ACT.
Cassiar Land District.

Recording district of Prince Rupert, and situate in Athin Lake, about one half mile due west of Athin Township.

TAKE NOTICE that Paul L. Eggert, of Athin, in the Province of British Columbia, occupation Jeweller, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the south point of the small island known as Second Island in Athin Lake, situated as above, thence northwest and on around this island following the shore line to the place of commencement; and containing two acres, more or less.

Sept. 3rd, 1924.

PAUL LOUIS EGGERT.
