# NOTED HUNTER WAS IN CITY

**Major P. M. Stewart of York, England, Spent Night Here on His Way to Northern B.C.**

On his way to the Telegraph Creek district where he will spend a month big game hunting, Major P. M. Stewart of York, England, noted hunter and writer, was in the city over night.

Major Stewart arrived by train last night from Jasper Park, where he had come direct from England, and sailed this morning on the Princess Alice for Wrangell. Returning here next month, he will proceed to Jasper Park to spend three weeks in that vicinity hunting bear. Then he will go to Vancouvr and proceed to Australia accompanied by Mrs. Stewart, who is coming out from the Old Country.

Though he spent only a short time at Jasper this week, Major Stewart while here expressed himself as being so pleased with the surroundings there that he cannot resist the temptation to do some hunting near there and, therefore, he is coming back.

Major Stewart has travelled seven times around the world and has hunted in practically every country. This is not his first visit here as he was hunting in British Columbia once about four years ago.

# CAPITAL NEEDED ISLAND MINING

**Mining Men of Portland and Vancouver Tell of Impressions after Visit**

There is plenty of opportunity for profitable mining development on the Queen Charlotte Islands but the country is suffering from lack of capital agree C. D. Emmons, mining engineer of Portland, Oregon, and Allan Stewart of Vancouver, another mining man, who arrived in the city this morning from Massett on the Prince John enroute south after having spent the past six weeks or so looking over prospects on the Islands. British Columbia has been injured in the past by the unscrupulous promoter and the activities of such have made it increasingly difficult for the bona-fide persons to obtain financial backing. Commenting on the black sand operations on Graham Island, Mr. Emmons and Mr. Stewart said they looked very promising although the success of them had not yet been proven.

This has not been the first trip of Mr. Emmons and Mr. Stewart to the Islands. In fact, Mr. Stewart has spent a great deal of time there. Before the war they were interested in Graham Island oil.

Mr. Emmons and Mr. Stewart will sail tomorrow night for the south.

## LECTURE BY COLONEL MCLEAN LAST NIGHT

**Leader of Salvation Army Revival in Western Canada Discoursed to Large Audience Last Night**

There was a large audience in the Salvation Army Citadel last night to hear Col. McLean of Winnipeg, head of the Salvation Army revival work in Western Canada, discourse on "Past and Present Miracles." The colonel referred particularly to the work of the Army and illustrated his lecture with frequent citations of personal experiences.

Mayor Newton, who presided, in speaking briefly, referred appreciatively to the work being carried on by the Army. Staff Captain Carruthers of Wrangell made a few remarks and thanked Mayor Newton for acting as chairman. There was a solo by Lieut Gardner.

### NO HURRY

"Rome wasn't built in a day," remarked the ready-made philosopher.

"Of course not," replied Senator Sorghum. "I suppose the contractors took their time and waited for more appropriations, same as usual."

## INCREASE FACILITIES OF LONDON, ENG., PORT

**Drydock to be Built at Tilbury and Other Docks Extended and Improved**

LONDON, Aug. 22.—Plans are in hand for increasing the facilities of the port. One concerns a new landing stage at Tilbury, which will add greatly to passengers' convenience. A new entrance to Tilbury dock is to be constructed, a new dry dock is to be built, and the Surrey Commercial docks are to be extended and improved. Other developments include the dredging operations to render the river accessible to ships at all states of the tide. Two million pounds have already been spent on this work and the result is that ships of 28,000 tons, drawing 37 feet of water, can now come up the river.

Probably one of the first questions to which the Ministry of Transport will turn its attention when the London Traffic Bill is out of the way will be that of providing a new road from the City to the Victoria Docks. The cost of such a scheme has been estimated at £3,000,000, and it is understood that the Ministry of Transport will be ready to provide half this sum, provided that the other half is found by the local authorities interested. A road of this kind would run by way of Whitechapel, and one suggestion which has been made is that for some considerable part of the way it should be carried by means of a viaduct.
