when, for instance, he was carry- increased speed. Let us demonstrate one in hing two cushions, the roll of The Other Captain had been in your home. Sold as low as blankets, the typewriter, the eggs these parts before, and while he and a pair of socks which had did not know what particular been ignored in the packing up, course should be taken in navithe Other Captain would turn to gating the river, he did know me and demand, "What was it that there was a constant danger that fellow Phillips said?" And that we would run aground on I would smile weakly and in sym- unseen shallows. I soon learned pathetic understanding as I clung that his were not vain alarms desperately to a suitcase, a pan because it was not long before of dishes, a camera and a sweater. we ran aground in the middle of the river. Backing off, we found When we had broken camp, a deeper channel and proceeded, loaded everything on to the but got into trouble on various launch, and gone down Falls occasions after that. The rising River to the Ecstall, we found the tide aided us, however, and there current in the latter stream was no danger of sticking for

### Engine Erratic

The river narrowed down until I could have thrown a stone across it, and we reached the section where the tide has little assistance we proceeded at an Other Captain to find out what the trouble was. This plan had worked excellently. As we chugged along through the upper reaches of the river our progress was slow, as we were bucking a strong current. The engine again began to give trouble, and when it finally quit altogether I heaved the anchor overboard to keep us from losing ground and went to sleep again. The plan worked this time also. The Other Captain got the engine going and we continued our journey. We snaked along from side to side, going wide on the curves to avoid shallows and striking bofom at intervals. The water eswirled past ugly looking rocks. We made our way carefully. When the engine stopped again

and I dropped the anchor it failed to hold and we lost ground, but before we got into trouble we came to a halt. I have a notion we backed on to a shoal.

Off For Johnson Creek Our objective was Johnson

Creek. The Other Captain had been there before in the Gwen and could wax most enthusiastic; about the beauties of Johnson ble before we hit anything. struction.

## To Insurance Beneficiaries

Hundreds of thousands of dollars are lost annually through the unwise investment or careless spending of monies received for insurance death claims and matured endowments. A Union Bank Savings Account is the proper place for the deposit of such monies. If Beneficiaries seek investments, our branch managers are always willing to help them with sound and conservative advice.
