

# "I was Greatly Distressed With Pains in the Back"

Mr. Alfred McNeill, Chapel Rock, Alta., writes:

"During the winter of 1920-21, I was greatly distressed with pains in my back and felt tired and depressed most of the time. Particularly during the night I was troubled with frequent urination, some nights having to rise almost every hour. I tried several different treatments without success, until finally I began using Dr. Chase's Kidney-Liver Pills, and they relieved my condition before I had finished the first box. I am feeling better this summer than I have for years, and although in my 67th year, can work all day without any undue fatigue."

## Dr. Chase's Kidney-Liver Pills

35 cts. a box of 35 pills, Edmanson, Bates & Co., Ltd., Toronto

### SYNOPSIS OF LAND ACT AMENDMENTS

#### PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land." Copies of this can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes and which is not timberland, i.e. carrying over 8,000 feet per acre west of the Coast Range and 1,000 feet per acre east of that range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner. Pre-emption must be secured for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

#### PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for first-class (arable) land is \$1 per acre, and second-class (irrigable) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 18, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

#### HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being transferable after residence and improvement conditions are fulfilled and land has been surveyed.

#### LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

#### GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock owners may form associations for range management, free, or partly free, permits are available for settlers, trappers and travelers, up to ten head.

#### LAND AUST

Queen Charlotte Island Land Disposal District of Prince Rupert

Take Notice that I, Samuel Simpson, of the District of Prince Rupert, in the following described lands, commencing at a post planted near the southeast corner of the Island, and thence 3 chains to low water mark, thence following low water mark in a northerly direction a distance of 80 chains (1 mile); thence westerly 2 chains; thence southerly 20 chains; to post of commencement containing 15 acres (more or less).

SAMUEL SIMPSON, Applicant  
Peter Keas, Agent  
11th September 1924.

### Here and There

#### Immigration to Canada for the month of August, 1924, totalled 20,186, of whom 5,706 were from the British Isles, 1,784 from the United States, and 12,696 from other countries. Immigration for the first five months of the fiscal year totalled 76,719. In the same period 23,861 Canadians have returned to Canada from domicile in the United States.

As an indication that the tide of settlers has definitely set in the direction of Canada, it has been known by the Department of Immigration and Colonization that 5,000 acres of land near Lethbridge has been sold to ten families of 75 persons from South Dakota. This, it is announced, is only the advance guard of a considerable northward movement from that region.

"We will have a good report to present when we reach the Hebrides," said Rev. Father Alex. MacDougall, a member of the Hebridean commission of inquiry which investigated conditions of Hebrideans in Canada. The members of the commission, after visiting Alberta, reported the new settlers perfectly satisfied with Canadian conditions.

Among the passengers sailing for Europe aboard the Canadian Pacific Steamship "Empress of France" on October 8th, was Geo. A. Walter, General Passenger Agent, Canadian Pacific Railway, Montreal, who will represent the company on an extensive tour of Europe arranged for the American Association of Passenger Traffic Officers by the trans-Atlantic steamship companies and the railroads of Great Britain and the continent.

Charles J. Perrigo, a native of Danbury, Conn., has received a commission from the Prince of Wales, and some of his blooded stock, the E. P. ranch, near High River, on the Canadian Pacific in Alberta. Perrigo, who has attained a reputation as a collector of antiques, says the commission was awarded during the Prince's stay at Vancouver. He will commence work the last part of October.

As a result of the survey conducted by the newly formed Grange Arts Association, painting and allied trades are now shown to constitute the second largest industry in Winnipeg, Man., representing an investment of \$10,554,218, and providing employment for 12,000 people. The report shows that during 1923 a sum of \$3,619,522 was paid in salaries.

With the approaching close of the tourist season, plans are being laid for the continuation of construction work at the Chateau Frontenac, the Canadian Pacific Railway's palatial hotel in the city of Quebec. Some of the interior decorating and the completion of rooms of the main corridor in the Chateau had to be left unfinished when the present tourist season opened, but it is expected that work on these parts of the hotel will commence very shortly. The billiard room and other rooms in the basement will also be completed as soon as possible.

### MANITOBA FISH PROVES POPULAR IN EASTERN CITIES

WINNIPEG, Dec. 11.—Lake Manitoba white fish and other species of the finny tribe from the lakes of this province are rapidly gaining new friends in New York and other eastern cities because of rapid delivery facilities furnished to shippers in Winnipeg, according to R. L. Fairbairn, manager of the passenger service bureau of the Canadian National Railways, who reached Winnipeg this morning. Under the new time schedule of National train out of Winnipeg, Mr. Fairbairn stated fish shipped from Winnipeg in the evening are placed on sale in New York at the opening of the stores three mornings later. Express car connections are made at Toronto, Buffalo, and other points to allow of the fish being delivered in New York and other cities without loss of time.

### INQUIRY INTO CASEY CHARGES

(continued from page 2)

In answer to further questions, McRae said he had 160 men with five straw bosses and he was about to appoint another this week. He was general foreman and kept the men's time after hours. He also kept a record of costs. If he had a car he could do better work and save the city much money. He was paid 64 cents an hour and allowed ten and a half hours a day.

At the close Alderman Casey said he did not know that there were any more questions to ask, but the foreman said there were a lot he would like to answer.

#### World Court

A member of the audience asked for permission to speak and got as far as asking whether this was a world court or a league of nations and mentioned that there was an elected council to look after the city's business, when he was stopped by the chairman and the proceedings closed. A report will be made to the city council on December 22, and in the meantime the stenographer will spend several days extending her notes and the Board of Works will consider the evidence.

### GOVERNOR BONE MAKES REPORT ABOUT ALASKA

#### Tells of Progress Made in Territory and Says Camps Emerge as Towns

WASHINGTON, Dec. 11.—(By Canadian Press).—The annual report of Governor Scott E. Bone of Alaska to the Secretary of the Interior, made public today, shows that the outstanding achievement of the year of benefit to Alaska was the enactment of legislation by Congress to protect and conserve its fisheries.

Strict regulations now control and will control this colossal industry and Governor Bone says the territory will support the policy of conservation.

The governor says the territory is steadily progressing and developing, and faith in its future is strong. Taking the place of former camps, permanent villages and towns are thriving. Industry is expanding and capital is beginning once more to seek investment in this region. He says improved transportation facilities are making the country homogeneous. Building of the government railroad and of roads and trails and increasing use of automobiles are accomplishing much.

Further impetus was given to mining during the year, especially in the Fairbanks district, on the Seward Peninsula, and on the islands of southern Alaska.

#### Fox Farming

Fox farming has developed on a large scale and the growth of this industry justifies the establishing of fox farming experimental stations in southeastern and southwestern Alaska.

During the fiscal year ended June 30, 1924, total shipments of merchandise to the United States amounted to \$53,824,239, an increase over the preceding fiscal year of \$836,964.

The value of gold and silver shipped during the fiscal year ended June 30, 1924, amounted to \$6,183,241, or a decrease of \$1,313,336, making a net total decrease in shipments of all products of \$476,372.

The increase in merchandise shipments is represented primarily in the canned-salmon industry. Other minor industries such as frozen fish, shell fish, fish oil, furs, marble, etc., remained about the same as the preceding fiscal year.

#### Value of Fish

The value of canned salmon shipped from the Territory during the past fiscal year, \$31,473,975, is greater than all other products of Alaska put together, including gold and silver. The value of fish and fish products together, \$36,852,075, constituted over 61 per cent of the shipments from the Territory.

Total imports into Alaska from the United States for the 11 months ended May 31, 1924, amounted to \$28,125,128, an increase over the corresponding period ended May 31, 1923, of \$1,034,565.

### NOMINATIONS FOR OFFICERS OF GYRO CLUB LAST NIGHT

#### Meeting Last Night Makes Preliminary Arrangements for Annual Meeting in January

At its regular monthly business meeting last night in the St. Regis Cafe, the Prince Rupert Gyro Club nominated candidates for the various offices in 1925. The election will take place in January and several Gyros from the south, it is expected, will visit the city for the installation ceremonies that will follow the election. Under Gyro constitution a contest is required for all offices so the members last night made sure there will be no dearth of candidates.

The following were nominated: For President—Joe Greer, S. K. Campbell, E. A. Mann, Leo Waugh, M. M. MacLachlan, R. W. Cameron, A. R. Nichols and Dr. L. W. Kergin.

For Secretary—Norris Pringle, G. C. Mills and S. Bazett-Jones.

For Treasurer—S. Bazett-Jones and G. A. Hunter.

For directors succeeding Dr. L. W. Kergin and Joe Greer whose terms now expire—G. C. Mills, S. W. Taylor, W. Cruikshank, R. F. McNaughton and Fred Henning.

The Gyro Club received a check from the Rotary Club of \$23 for the playground fund, being the proceeds of an inter-club bridge tournament which the Gyros lost. The check is to be acknowledged with the thanks of the Gyro Club.

The annual Gyro International convention is to be held on July 10, 11 and 12, 1925, in Vancouver and the local club has decided to send an official delegate. The member with the highest attendance record between now and the end of June will be the delegate.

The following Gyro playground committee has been appointed for the coming year: R. A. Harlow (chairman), R. F. McNaughton, W. W. Wright, E. A. Mann and W. J. Nelson.

### FRIED TO SUICIDE BUT GIVES IT UP

#### Patrick McGinty Threw Himself in Front of Engine but Still Lives

WINNIPEG, Dec. 11.—"Guess it's no use. I might as well try to live," declared Patrick McGinty when he was picked up from under the pilot of a Canadian National engine near Hudson Bay junction on Saturday afternoon. Patrick had refused to concede right of way to a mixed train, the engineer of which was

unable to stop the train before Patrick, who was walking on the track had been struck and dragged three car lengths. When Roadmaster Dennis hauled Patrick out from under the engine, the would be suicide informed him that he had jumped out of a hotel window during the night to try and kill himself but only hurt his foot.
