CANADIAN NATIONAL OFFICERS OFFER AID

MACLAREN NOW PREPARING FOR HARD FLIGHT TO KURILES AND ALEUTIANS

Railway Staff Willing to Give Days' Pay per Month to Reduce Costs

MONTREAL, July 7.—In view of industrial and trade conditions which have resulted in a falling off of the gross receipts, officials of the Canadian National Railways from the president down have volunteered to give one day's pay per month to the management to help in the reduction of operating expenses.

The offer, which emanated entirely from the officers themselves, has been gratefully acknowledged by the chairman and the board of directors. The situation is being fully gone into to ascertain if it will be necessary to accept the voluntary offer and, if so, to what extent it will be necessary to put into force reductions in the salary list of employees throughout the system.

HOME BANK IN PRIVY COUNCIL

Judgment is Reserved on Petition of Directors Against Jury Trial

LONDON, July 7.—The judicial committee of the privy council today reserved judgment on the petition on behalf of the accused directors of the Home Bank from the original decision of the committee that the matter in question was of a criminal and not civil nature and therefore did not come within the jurisdiction of the judicial committee. Argument in the appeal of the attorney general of Ontario against the judgment of Mr. Justice Middleton of the Ontario Supreme Court granting speedy trial to the accused directors therefore was brought to a rather sudden and unexpected end.

SPECIAL TRAIN ON WAY HERE

C.N.R. Tour Party Entertained at Prince George—at Kitwanga and Sunnyside Today

PRINCE GEORGE, July 7.—Nearing the end of the first lap of the trip, the special train carrying the third annual personally conducted tour over Canadian National lines arrived here on schedule at 5.30 o'clock last evening. After dining on the train, the party was entertained by the board of trade to a two hour motor drive.

Today the train will make stops at Kitwanga and Sunnyside where the passengers will be given an opportunity to see the famous Indian village and inspect a salmon cannery respectively and is due to arrive at Prince Rupert at 8 this evening.

The party leaves on the Canadian National S.S. Prince Rupert for Vancouver where it will disband for various points.

The Hazelton Horticultural Association supplied bouquets of flowers for the dining car of the special train. This is the practice of the Association with all tourist trains this year and it is proving a valuable means of advertising the district.

+ DEMOCRATS ARE STILL BALLOTING
+ NEW YORK, July 7.—The Democratic convention resumed balloting this morning with little change from Saturday's vote. It is now considered probable that neither McAdoo or Smith will be chosen and that a decision will only be reached when both have dropped out.

BUCKLEY BAY MILL CLOSING

Reconstruction of Plant is Reason Given Forestry Department For Shutdown

The *Masset* Timber Co.'s sawmill at Buckley Bay, which has been operating steadily for the past year or so cutting rough lumber for export to Los Angeles, is closing down for reconstruction purposes, the forestry department here is advised. P. S. Bonney, district forester, leaves tonight to visit the plant and obtain more particulars as to the situation.

The fact that the company is also closing down its logging camps and sending out its loggers lends to the belief that the shutdown may be a lengthy one, particularly as there are few logs ahead. It is understood that the present congested state of the California lumber market following upon the dropping off of the building boom is a contributory factor to the closing up of the mill.

Last night the steamer *Prince John* returned from a special trip to Buckley Bay bringing 150 loggers most of whom will go south to Vancouver on the *Prince Rupert* tonight. The *John* made the trip in record time of 24 1/2 hours including a two-hour stop at Buckley Bay.

MacLaren plans to remain here for several days while the plane is overhauled and made ready for the long and strenuous jumps through the Kurile Islands and across to the Aleutians. He hopes to get away Saturday, his first stop being Minato on the northern end of the Island of Honshu.

U.S. FLAG AFFAIR IN CITY OF TOKIO IS SMOOTHED OVER

WASHINGTON, July 7.—Charge Cafferly at Tokio has advised the State Department he has been officially informed that the man who tore down the United States flag in the American Embassy compound here has been arrested and that a representative of the Tokio police department called upon Cafferly July 4 and apologized on behalf of the police.

The ban on publicity was removed on July 4, the Charge said, and the vernacular press gave the affair much prominence in the strongest terms. The *Jiji Shimpo* characterized the act as "a stain on our national honor." The promptness with which the Minister of Foreign Affairs presented to Mr. Cafferly the regrets of the Japanese government was favorably commented upon.

British Sprinter Leads in Olympic Semi-Finals; Will Race with Yanks in Final

COLOMBES, France, July 7.—Cyril Coaffee, Winnipeg's crack sprinter, failed to qualify today in the finals for the 100 meter event at the Olympic Games. Entering the qualifying round by winning in two heats on Sunday, he was beaten today in the semi-finals. G. Hester of Toronto was also beaten in the semi-finals of the same event.

The second semi-final in the 100 meters was won by Harold Abrahams, the British star, who beat Charley Paddock and Chester Bowman, the United States entrants. The latter finished second and third thus putting four American sprinters in the finals.

Abrahams equalled the previous Olympic record, his time being 10 3/5 seconds.

Ritola of Finland won the 10,000 meter Olympic race on Sunday.

TERRACE MINE MAY HAVE MILL

Good Progress Reported at Shareholders' Meeting of Kalum Lake Mines Ltd

TERRACE, July 7.—A meeting of the shareholders of the Kalum Lake Mines Limited, was held in Terrace on June 30 to receive a report of the directors on progress made in development of the mine.

It was shown that over an acre of timber surrounding the site had been slashed and burned; bunk and mess houses, blacksmith shop and hoisting works erected, and a new shaft 6 feet 10 inches by 4 feet, well timbered, sunk to a depth of over 40 feet on the vein.

The showing of ore and work done is so satisfactory that the shareholders authorized the sale of a small block of stock to carry on further development to a point where it will be advisable to install a mill.

A mill test shows that the ore contains gold values of \$53.60 per ton of which \$42.20 is free, besides silver values.

ONTARIO NIGHT WATCHMAN MURDERED

ST. CATHARINES, Ont., July 7.—That Newman H. Orth, 52, night watchman at the freight sheds of the Niagara, St. Catharines and Toronto railway, missing since Friday night, June 4, was murdered, was made certain this morning when a body taken from the Welland canal at Port Robinson, 13 miles from here, was identified as that of the missing man.

Orth's hands were tied behind his back by a piece of rope and he had been rendered further helpless by long portions of stout wire which had been wound around his body from the hips upwards, to the ends of which railway fish plates were attached for the purpose of sinking the body. After being fettered this way his coat had been placed about him.

His duties took him through the freight yards inspecting the seals of cars. The first theory points to his having come upon car thieves who struck him down, placed him in an automobile and threw him into the canal.
