MRS. GRIEVE HAS LATEST STYLES

Tells of What is Worn in Big Cities of Continent

Business is picking up wonderfully in the east and there is a decided tone of optimism among businessmen, both wholesale and retail, for the future good business prosperity of Canada, according to Mrs. M. Grieve, who has just returned from an eastern buying trip in the interests of Demers ladies' ready-to-wear store. On the trip Mrs. Grieve visited Toronto, Ottawa, Montreal, Winnipeg, New York, Chicago and Minneapolis.

Suits Fashionable

Speaking of prevailing fashions in the big cities, Mrs. Grieve states that among the smart set both in eastern Canada and the States suits are again all the rage. For street wear flannel material is very popular and other popular materials are tweeds, fine serges, twills and broken plaids. Woollen materials are the thing in sports garments. Skirts made of chinelle tricolette for street wear are being worn ten or eleven inches from the ground while afternoon and evening gowns are worn longer. Both long and short coats are being worn the "mannish" cut being popular. The fashionable colors are sand, grey and combination black and white.

In Millinery

All the big stores are carrying small style hats. While the millinery fashions for the coming season promise to be all small in shape they are most becomingly made up and are proving very popular. The trims are very dainty and the colorings are delicate.

World's Best Railway

Speaking of her journey across Canada Mrs. Grieve said "The Canadian National Railway is the best railway in the world, to my mind. The service is excellent and the employees will do anything in the world to make the passengers comfortable and happy." The recent installation of the radio on all Canadian National transcontinental trains has greatly lightened the monotony of train travel. When travelling east to Winnipeg, Mrs. Grieve listened over the railway radio to a speech by President Coolidge and on the return trip heard a radio talk by Sir Henry Thornton, president of the Canadian National. Splendid musical selections were also heard of a symphony orchestra broadcasted through Calgary.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil). The inventor, G. A. Johnson, 595 McDermot Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $250 to $500 per month.

Miss Florence Byatt, graduate of the Prince Rupert General Hospital training school for nurses, has taken a position on the staff of the Port Simpson hospital.

Baby's Bedding

LITTLE woolly blankets—how soft and fluffy they must be kept for the Baby.

And linen, and fine raiment — they must not chafe or irritate his tender skin.

Baby's bedding must be washed as carefully as you would bathe his tender little self. No strong soap must be allowed to shrink or coarsen his dainty blankets or make them stiff. There must be no harsh rubbing of his tiny garments and linen until they are fuzzed up, and rough.

Wash Baby's bedding in Lux. The delicate flakes dissolve instantly into a rich, generous suds that can be squeezed through and through each fabric until it is clean, and as sweet and fresh as when you first bought it. Don't let bedding get harsh and scratchy. Keep it soft and fluffy with Lux.

Sold only in sealed packets—dustproof!

LUX

LEVER BROTHERS LIMITED

PARENTS OF PUPILS LISTEN TO RADIO

NEW YORK, Mar. 1.—On every school day from 2 o'clock p.m. until 2.30 the air in and around New York is now being cleared of all radio interference that parents of New York school children may have a chance to listen in and get first hand information as to how teaching is carried on in the public schools. The series of programs includes talks by heads of departments as to how the machinery of the school system functions and musical selections by pupils.

AMERICAN TO PRODUCE IRISH MOTION PICTURE

DUBLIN, March 1.—L. Leroy Granville, an American producer, was in Dublin recently making a preliminary investigation with a view to producing a motion picture depicting Irish life. He declared he would return here next summer for that purpose and invited Irish authors to submit stories. He said Americans were anxious to see a modern and faithful presentation of Irish national life, eliminating the stage Irishman.

"The atmosphere in Ireland," said Mr. Granville, "is as good as it is in California, and there is some of the finest scenery in the world in Ireland."
