Tower's WaterproofTOWER CANADIAN LIMITED
TORONTO VANCOUVER WINNIPEG HALIFAXDoings of the Mosquito Fleet which is the
chief source of Prince Rupert's prosperity

The admiral of the Mosquito fleet reports that rough weather has again been experienced on the deep sea fishing grounds, which has proved to be a draw-back to fishing and has in consequence reacted upon the total of halibut fares landed at this port during the past week. In addition the heavy arrivals of last week has caused both the Canadian and American boats to get "bunched." The light landings have jumped prices on the Fish Exchange considerably over those prevailing last week. The total landings for Monday and Tuesday amounted to 88,000 pounds while on Wednesday only two American schooners arrived with 9,000 pounds of halibut between them, the sale being held over until Thursday. However, the full landings has permitted those engaged in the fish business to do various repair work to machinery and other gear and to get their breath—so to speak—for the next periodical rush.

Many halibut boats of the home fleet, which have been overhauling for the past few months, have left port this week. These departures practically bring the home fishing fleet up to its full complement, and will result in a considerable increase to future Canadian arrivals. The new 60 foot Doreen Schooner, now on the dry dock completing engine installation, will be leaving for the high spots early this month. This addition to the Canadian fleet will greatly enhance future landings.

The real Mosquito fleet is getting licked into shape and the little fellows are rapidly taking on an active service appearance. A portion of the Mosquito fleet is at Seal Cove, while Bone Yard Greek and the ways around Gow Bay are filled to capacity with this class of craft, which are undergoing necessary once overhauls to receipt of mobilization orders from the old man—meaning the admiral.

Several native fur arrivals are reported this week from the Gardner Canal and Wark Canal districts. Mink and marten predominated in the catches which found a ready local market. According to local fur buyers the skins arriving this season are of fine quality.

Yacht Club Doings
The burst of spring-like weather on Sunday morning brought out pleasure boat owners in great force and the local Yacht club premises took on quite a midsummer atmosphere. A bunch of members were down at the float at an early hour looking to batteries, coils, spark plugs and other equipment. Much physical exercise was enjoyed by the turning of disused flywheels and many members doubtless suffered with sore shoulders and aching muscles as a consequence. However, the majority of the owners

The schooner Annie Tuck, Capt. Joe Babcock, came off the dry dock early in the week after having repairs made to the hatch and deck. Annie was recently in a bad blow and suffered somewhat from the effects. The schooner cleared for the high spots on Thursday afternoon.

New Gee Gee Arrives

Glen Hebb, master of the horses for the Albert McCaffery interests is happy once again. A fine new horse arrived on the steamer Princess Beatrice to take the place of the late lamented Nigger. According to eye witnesses the horse was landed with much difficulty and did not take very kindly to the new surroundings. Doc Clapperton, who took a prominent part in getting the quadruped onto terra firma, said he nearly got more kick out of the new horse than some men would get out of a new distillery. Wire hawsers were used as headropes but even they failed to hold the kicker securely. Glen decided that his new charge needed a severe schooling and to this end has placed it in the Lindsay college for unruly horses for at least a full term.

Borts of the Canadian Fish & Cold Storage Co.'s fleet have been busily occupied during the week fishing for herring in the harbor. A considerable quantity

has been obtained.

The Canadian schooner Bingo, Capt. Axel Anderson, made an endeavor to clear for the deep sea fishing grounds on Tuesday last but the gale outside the harbor forced him to return. However, the Bingo eventually cleared port on her initial trip of the season.

Jimmy's Fine Craft

The good ship Viner, Capt. Jimmy Thomas, is the latest addition to the local commercial fleet. Jimmy steamed into port from Vancouver after having a 10 horse power Standard Semi-Diesel engine installed. Final touches to gear, etc., are now being done aboard and the boys will in all probability clear for the high spots early in the coming week.

The Canadian schooner Hippo and the logging boat Ruby Mae, the latter skippered by ex-Alderman Currie, are on the McLean ways for general overhaul.

The power boat Taplow, of Port Simpson, is at the dry dock for the installation of a new 12-15 horse power Vivian engine. Repairs are also being done to the pilothouse.

The schooner Swing, Capt. Eric Rosang, is being overhauled preparatory to a dash to the high spots.

The Canadian schooner Koyoo returned to port over last week end under the command of Capt. Dave Ritchie, her new owner and skipper. According to report everything worked fine and Dave is tickled with his new pet.

Love! Love! Love!

"Love! Love! Love!—I've got it on the brain" is the title of an old song and aptly describes the malady from which one named Sandy is suffering. How do we know? By watching his actions and listening to his sentimental chit. To hear Sandy describe the beauty of the damsel of his choice is like listening to a bird of paradise singing to its mate amidst the grandeur of its natural surroundings. Leafy bower, murky moonlight, sly glances, beer and flypapers all waft as a vision through one's mind as Sandy holds forth on the subject so near and dear to his heart. The seafarers have been working hard of late to try and get a line on the girl in question so that a snapshot could be taken of the beauty to be reproduced in the Whiff columns. Needless to say their efforts have not met with much success to date. Sandy evidently believes in the old saying, "Never introduce your sweet-
heart to a pal." One of the love-sick stunts that Sandy pulled off Lebanon, Margalice, Daisy, E. the other morning was to feed a Lippst. Volunteer, Crescent, two pound steak bone to a sea Fremont, Durovick, Verna, Minnie gull. The gull, as gulls will, swal-
V. Texas, Imperieuse, Venus, result that it could not fly, the of Jacks, X. and S., Dundas.
bone acting as an internal anchor.

Another stunt was to walk into the harbor on Thursday morning R. L. Newcomb, has been engaged wearing two pairs of socks and during the week in assisting to his fur lined necktie. In mixing recover, the lumber which was the paste for the morning flap-upset when the barges, containing the other day Sandy put in the export lumber for the Orient, white pepper instead of salt, and broke away from the lumber as they are told.

The launch Dixie Rupert, Capt. Another stunt was to walk into the harbor on Thursday morning R. L. Newcomb, has been engaged wearing two pairs of socks and during the week in assisting to his fur lined necktie. they are told.

Fish Business

During the week, 151,200 pounds of halibut has been marketed on the Fish Exchange. Canadians were high at 17.4c and 8c, and low at 15c and 8c. Americans were high at 18.7c and 10c, and

FOR 15 YEARS WAS
TROUBLED WITH ECZEMA

There is no other remedy like Burdock Blood Bitters that can possibly give such relief to all sufferers from eczema, salt rheum and all other diseases of the blood for the reason that this old and well tried remedy goes right to the seat of the trouble and completely and permanently drives these diseases out of the system by cleansing the blood and making it pure and rich.

Mr. F. W. H. Schultz, Pembroke, Ont., writes: "Having been troubled with eczema for fifteen years, during which time I tried everything I could think of, including doctors, but without getting anything to do me much good I finally decided to take Burdock Blood Bitters, and I was certainly surprised to find that two weeks after I had started to take it I was relieved of my trouble. That was nine months ago, and I have not had a sign of it since. I surely wish to thank you for this wonderful medicine and strongly recommend it to anyone suffering from the same trouble as I had."

B.R.B. is manufactured only by The T. M. Lubben Co., Limited, Toronto, Ont.

has been obtained.

The Canadian schooner Bingo, Capt. Axel Anderson, made an endeavor to clear for the deep sea fishing grounds on Tuesday last but the gale outside the harbor forced him to return. However, the Bingo eventually cleared port on her initial trip of the season.

Inez Has New Engine

The fishing schooner Inez H., owned and operated by the Ness Brothers, recently returned from Vancouver after having a 10 horse power Standard Semi-Diesel engine installed. Final touches to gear, etc., are now being done aboard and the boys will in all probability clear for the high spots early in the coming week.
