# Get (arnation...

Carnation Evaporated Milk is the most widely accepted brand for baby-feeding. One reason is that Carnation is to be trusted. The Carnation you buy is sterilized.

And Carnation is safe in another way — it never varies, it is always exactly the same. Carnation is safe in a third way—it keeps sweet longer. Ask your doctor about Carnation Milk for your baby.

MAKE THIS 7 DAY TEST - for general milk use, for just one week, use Carnation Milk in place of your present brand. Once you have used Carnation, we are sure that no other brand will satisfy you.
