**Thought Messages
 Across The Sea.**

Despatches to southern papers tell of plans to send thought
 messages across the sea. Harvard University is taking the mat-
 ter up and already has had some success in sending messages
 from one eastern city to another. The Vancouver Province draws
 attention to the fact that Archbishop Du Vernet of this city had
 been conducting experiments in this little understood field and
 had achieved notable results in sending thought emanations a
 distance of over 500 miles.

**Arrival of Fliers
 Is Big Event.**

The arrival of the American fliers this week will be a big
 event and doubtless most local people will be anxious to see
 them. It is also understood that movie men will be taking
 pictures of their arrival and it would be well for a good showing
 of spectators to be made. As soon as word is received here of
 their leaving Seattle, which it is said may be on Wednesday, the
 news will be bulletined at various points in town, including the
 newspaper offices, and that will give people an opportunity to
 get out to view the flight around the city and the landing. As
 the landing will be near Seal Cove, a great many people will go
 there or to the hill overlooking the cove in order to watch the
 birdmen alight. It will be rather a spectacular event to most
 local people.

**Greater Activity
 On Queen Charlottes.**

Activity on Queen Charlotte Islands is reported from time
 to time and this is steadily increasing. The big mill at Buckley
 Bay is increasing its output and at other points there is logging
 and mining going on. The black sands near Massett are being
 experimented on with a view to extracting the gold. These sands
 contain gold in paying quantities if it could be saved. The dif-
 ficulty is that it is so fine that it is very difficult to separate it
 from the sand and to do it cheaply enough for the operation to
 pay. Some day this will be done and then there will be a big
 industry there, for there is any quantity of the sand.

**Too Early Yet To
 Comment on P.G.E.**

It is too early yet to comment on the P.G.E. investigation.
 The commissioner who is a judge of supreme court of British
 Columbia and absolutely independent of the provincial govern-
 ment or of any other government, will give his report soon. In
 the meantime the only thing we know is that so far as the public
 is concerned the investigation fell flat and they are little con-
 cerned in what the report will be.

It is understood that the McRae adherents complain that
 the newspapers did not give it enough of the right kind of pub-
 licity. What they would have liked would have been reports
 which would emphasize their side and minimize the other. But
 the newspapers with a few minor exceptions are not doing that
 any more. They are giving the news of both sides as far as pos-
 sible. If McRae and Tupper and the others had made the charges
 stick, the newspapers would have shouted it loud enough in
 black headlines. But they failed, judging by reports sent out
 and by the disappointment evinced by the leaders of the third
 party.

**The Man in the Moon
 SAYS:-**

HEAVEN is a place where
 neighbors never borrow matches.

THERE was a time when peo-
 ple had little money at the be-
 ginning of the month but now
 gramophone records come out
 just then and the result is fatal.

THERE have been several epi-
 demics in this city during the
 early spring. There has been
 measles, flu, bridge, and slight
 attacks of badminton and fallen
 arches.

PATTING a man on the back
 is liable to make his head swell.

THERE are a good many
 things to be thankful for. Think
 what a world this would have
 been if horn rimmed spectacles
 had really become the vogue.

IT is said that money talks
 but if it does it should be arrest-
 ed for the kind of language it
 uses.

WE all are watching for the
 planes

The aeroplanes
 They'll be here soon unless it
 rains
 Four aeroplanes

To see them we will all turn out.
 'Twill be a sight, there is no
 doubt

And as they land we all shall
 shout
 Welcome aeroplanes.

A LOT of people stick their
 noses into this newspaper busi-
 ness, but you never see them do
 that with the fertilizer business.

AT a dance the girls were all
 labelled and the men on arriving
 had to take them from the des-
 cription. There were blue eyes,
 bobbed hair, red hair, auburn,
 locks, curly fringe, old maid's
 lick, the girl in white, the freck-
 led girl, the girl with the golden
 eyebrows, and all the rest etc-
 era just like the meals on a bill
 of fare. One old grizzly veteran
 of many matrimonial scandals
 looked over the list and remark-
 ed: "Bring me the whole blamed
 bill of fare."

IF money talks Jake wants to
 know what it says when it is
 sunk in one of those dry holes
 they call oil wells.

CHILDREN are the coupons
 cut from the bonds of matri-
 mony.

SOME people steal and are
 sent to jail while others never

**Ten Years Ago
 in Prince Rupert**

April 1, 1914.

A banquet in which enthusiasm
 and patriotism were noticeable
 features marked the formal dis-
 bandment of the Earl Grey's Own
 Rifles last night. Officers and
 men were all present and there
 were many expressions of regret
 at the decision of the govern-
 ment to terminate the activities
 of the regiment. The speakers
 included Capt. Stork and Lieut.
 S. P. McMorde.

H. C. Brewster and John Oliver
 are due in the city this week in
 the course of a speaking tour.
 They are now on their way up
 the coast and will go from here
 to the interior.

William Manson, M.P.P. ex-
 presses appreciation with the
 manner in which the two local
 Conservative organs discuss is-
 sues of the day.

**COULDN'T SLEEP
 HEART WAS BAD
 NERVES A WRECK**

Mr. H. A. Reid, Upper Musquodohut,
 N.S., writes: "I am very thankful for
 the benefit I have received by using Mil-
 burn's Heart and Nerve Pills."

When I came home from overseas, in
 1920, my heart was very badly affected
 by concussion, and my nerves were a
 dreadful wreck. I was very short winded,
 and could not possibly sleep at night, in
 fact, I was in such a condition I felt as
 if I did not wish anyone to speak to me,
 thought I would try Milburn's Heart and
 Nerve Pills, and before I had taken two
 boxes I could enjoy a good night's rest
 as well as anyone.

There are lots of returned men who
 are suffering the same as I did, and I
 feel sure that if they would only try Mil-
 burn's Heart and Nerve Pills they will re-
 ceive the same relief that I have.

First Comes Safety

Two forms of investment you can safely
 buy "on faith,"—they are Government
 Bonds and Life Insurance.

Every dollar invested by a life insurance
 company must be reported to the Govern-
 ment at Ottawa. In every public library or
 life insurance office you may see the
 Government Report which gives a list of
 the securities owned by each company.
 Government inspection, plus good man-
 agement, makes an investment in life
 insurance safe.

Life insurance should be the foundation
 of every Estate, and if you have not
 enough you should at once consult a life
 insurance man.

"Better be sure than sorry."
