### POINCARE IS INTRENCHED

Is Stronger Now Than Has Been  
For Many a Day and Expect-  
ed to Win Election

PARIS, April 4.—Poincare's victory seems to have been complete. With his new cabinet he is in a much stronger position than before his defeat in the chamber of deputies. He is now supported by the moderate left.

Among the members of the cabinet is Louis Loucheur, a wealthy industrial leader, who was opposed to the Ruhr occupation and who also favors the payment of all debts owed by France to foreign nations.

It is anticipated that with his new cabinet Poincare will be victorious in the elections which take place May 11.

During the discussion some members said that the effect of the amendment would be to destroy the principle of the bill.

### YOUNG STRIBLING WON OVER MIKE MCTIGUE

Had Best of Every Round According to Newspapermen Who Witnessed Fight

NEW YORK, April 4.—Young Stribling won the newspaper decision in a twelve round bout with Mike McTigue, the world's light heavyweight champion.

In the semi-final Paul Berlinbach knocked out Harry Krohn in the fourth round of a ten round match.

Stribling's victory over McTigue failed to win him the world's light heavyweight championship as New Jersey only allows the championship to pass by a knockout or foul. The strapping Georgian boy decisively outpointed his veteran rival from start to finish and had McTigue on the verge of a knockout in the tenth.

Stribling won every round, in the opinion of the majority of newspapermen, with his slashing whirlwind attack.

COLUMBUS, Georgia, April 4.—An offer of \$15,000 for a return bout here on July 4, between Stribling and McTigue was wired last night to Paddy Mullins, McTigue's manager by the American League promoter.

### SACKING FACILITIES

The government expert has recommended the construction of an elevator with a 50,000 to 75,000 bushel capacity to be used in connection with the government dock building completed a year or two ago. The government wharf building would be used for sacking grain delivered at the elevator for export. Both the other inspecting parties appeared to be greatly impressed with the possibilities of the port in connection with the export of grain to the Orient. Prince Rupert is nearer than Vancouver from which port grain is now exported and is open throughout the year.

### Customs Duties are a Record this Year; Show District Development

Customs excise collections for the port of Prince Rupert during the fiscal year 1923-24, ending yesterday, constitute a record in the history of the district. The total was \$181,713.45, showing an increase of \$11,514.83 over the year 1922-23 when the total was \$169,713.45. The figures indicate a healthy expansion of district development.

The total customs excise revenue for March, 1924, was \$21,906.17 as compared with \$11,147.55 a year ago.

Work on the six gasboats is to commence at once, four being scheduled to go up on the small section of the dock tomorrow and the other two as soon as there is room for them. Work on the Malaspina and Marfish will commence towards the end of the month.

In addition to these government boats, the shipyard was advised this morning that the Ho-

### STRIKE CAUSED IRISH TROUBLE

Destruction of Roads and Bridges Not Due to Political Action

DUBLIN, April 4.—The blowing up of bridges and destruction of roads in the counties of Longford and West Meath was due to labor troubles and not to action of a political nature, according to responsible opinion.
