

For every wash-day method

RINSO is ideal for any wash-day method you use. You do not have to change any of your usual steps—just use Rinso where you used to use ordinary soap.

If you use a Washing Machine, soak your clothes in the Rinso suds as usual. In the morning add more Rinso solution and work the machine. Then rinse and dry—you will have a clean sweet snow-white wash.

Just soaking with this new kind of soap loosens all the dirt until a single rinsing leaves the clothes clean and spotless.

However you do your wash, make it easy by using Rinso.

Rinso is sold by all grocers and department stores

Here and There

In response to the appeal of the University of Bishop's College, Lennoxville, Que., for \$500,000, to meet present needs, the Canadian Pacific Railway has supported the plea by subscribing \$15,000 to the fund.

Canada will soon be the mecca of many moving picture directors, according to Herbert Brenon, producer for Thomas Meighan, who recently arrived at Banff to film the big outdoor scenes for James Oliver Curwood's "The Alaskan."

The fish catch of the world approximates \$1,000,000,000 a year in its cost to the consumer, of which \$780,000,000 goes to those who harvest it, statistics furnished by the United States Fish Commission declare.

The value of the tourist traffic to Canada is proved by figures supplied by the Parks Department of the Dominion Government, which show that the enormous sum of \$136,000,000 was spent by tourists in this country in 1923. This represents the Dominion's fourth largest source of foreign cash income.

On her arrival at Quebec, June 14, the Canadian Pacific steamship "Empress of France" broke the record for the fastest time made between that port and Southampton, England, from which she sailed, having maintained an average speed of over 19 knots. This vessel also holds the record for the run between Quebec and Liverpool.

Arrangements for the Pageant of Empire, to be held at the British Empire Exhibition, July 21-August 30, are now rapidly completing. Episodes showing the history of Canada and the other Dominions as well as of the Mother Country from the earliest times to the present day are being organized with the assistance of prominent residents of the Dominion now in London.

Hon. J. E. Perrault, Minister of Colonization, Mines and Fisheries for the Province of Quebec, on his return from a recent extensive trip to the Temiscaming district of that province, stated that there were over 2,000 prospectors exploring the gold-fields of Quebec and at least a million dollars would be expended in development work in the region during the course of the season.

According to figures prepared by the freight department of the Canadian Pacific Railway, the export grain movement via Vancouver reached a total of 48,971,930 bushels on May 31, 1924, compared with a total of 17,357,115 bushels as on May 31, 1923. In each instance the figures cover the crop year commencing September 1st. The increase is therefore 31,584,215 bushels or 181.5 per cent.

Enthusiastic celebrations took place at Vancouver and Victoria, B.C., when the special service squadron of the Royal Navy, headed by H.M.S. Hood, the largest warship in the world and flagship of the squadron, visited those places recently. The squadron is expected on the Atlantic seaboard in August, when efforts will be made by Canadians on that coast to outdo the Pacific cities in the warmth of the welcome they extend. The anticipations are that thousands of visitors will gather at Quebec and elsewhere to demonstrate their affection for the officers and men of the fleet.

"You may say that Canada is becoming one and more interesting to Englishmen and before long additional English capital will be used here in the development of industries. I am very optimistic and I believe that we are now progressing towards an era of unprecedented prosperity. What we need more than all now is the immigration of good men who will become an asset to this country," declared Sir John Aird, President of the Canadian Bank of Commerce, on his return from Europe recently aboard the Canadian Pacific steamship "Empress of France."
