

OXO CUBES save the Housekeeping Money

Oxo Cubes are more than the easy way of cooking.

They are the economical way.

They lend zest and flavor to warmed-up dishes, and by stimulating the system, enable you to obtain extra nourishment out of the other foods you buy.

And there is another gain besides the monetary one—the family gain in health and strength that follows Oxo cooking. By getting more nourishment from your foods, you and those around you grow rapidly in strength and energy.

Put Oxo Cubes on your order list today. After a test you will never want to cook without them.

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, G. A. Johnson, 595 McDermot Ave., Winnipeg, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

Women now realize the need of adequate corsetting

—and the buying of a corset now receives the careful attention it deserves.

Experience is, after all, the best teacher

MONTHS ago when many women, eager to follow fickle fashion's decree, discarded corsets and took to the girdle and the wrap-around, the remark was sometimes made: "I'll never wear a corset again", in the false belief that the essential support of a proper corset, to which the figure had been accustomed, could be abandoned without serious results either in appearance or health.

The need of proper support

Time, has however, corrected this false impression. These same women are now coming into Corset Departments asking to be fitted

with corsets that properly support the figure and protect the vital abdominal organs from strain and from possible misplacement.

Thousands of women are thus now convinced of the necessity of adequate corsetting, not only as a prime essential in the preservation of health, but also as a most important factor in the accomplishment of a perfect appearance.

A style to suit every type of figure

Women now appreciate, more so than ever, the many superior features of the Nemo Corset. Among the many models and styles available there is a Nemo Corset that meets exactly the individual requirements of your figure. The scientific construction of the Nemo provides ample and comfortable support, while their design insures a proper corset foundation for the new frocks and suits. Ask to see the new low bust models.
