Should Cut Long Drawn Out Sessions.

The long drawn out budget debate at Ottawa ended just the way it was expected-with a large majority in the favor of the government. Admitted to be one of the best budgets that has been brought down in many years, it received the support of the Progressives and the division, otherwise, was along political lines with the exception of the three Liberals who, through reasons of particular location or opinion, opposed it.

The debate was more lengthy than was expected or necessary. The budget debate, like that on the address from the throne, gives members all and sundry the opportunity to talk on any-more, counsel for the defence, things out. People were under thing they like. Advantage should not, however, be taken of this vesterday asked Judge Young for the impression that the W. C. Here, too, there is talk of the Provincials getting in but it also seems likely that, FIRE PROTECTION whatever they do, the main argument will be between the Liberal FIRE PROTECTION and Conservative candidates.

In Atlin, H. F. Kergin, after a good term's record, is to defend himself against Bob Armour, the Provincial nominee and Board Decides to Get in Touch such other opponents as may yet be named. It is stated that the Provincials have a better chance of making a showing in Atlin than in other ridings of the north.

MOTHER KEEN

She is Sweden's Greatest Booster For Success of American Aviators

STOCKHOLLM, May 17 .- Sweden's greatest booster for the success of the American round the world flight is a little whitehaired old lady in Stockholm, who may be seen any day sitting in an avalanche of newspapers, with a pair of scissors in ber hands, and a map of the projected route on the table. Late editions of the dailies come to her home as soon as they are off the press, and she scans the cable columns for every scrap of news of the airnen and the progress of their undertakning. At times her eyes grow big with apprehension, but more often they sparkle with vivid satisfaction. It is because the high adventure is hers, too. She is the mother of Lieut, Erik Nelson, the engineer officer of the American round the world flight.

"We expected Erik to become a sea captain," says the white-\$1.00 haired lady, "but we never dreamed that he would take to the air." COMPENSATION BOARD \$6.00 Then she tells how Erik in his of years in Swedish and British
