MADE GOOD MONEY RAISING WHEAT IN HUTTERITES COLONY

Indians also Make Big Money on Prairies at Farming

LETHBRIDGE, Alta., Dec. 4.—One thousand dollars for every man, woman and child is the average realized from this year's grain crop in the Raley colony of Hutterites.

The colony owns a tract of land covering approximately 5,000 acres. In the colony proper there are 61 people. This year they raised 45,000 bushels of wheat which was valued around $62,000.

A few years ago a section of the colony seceded and was awarded 1,000 acres by the court. There are now fifteen persons in this colony and this year's crop yield reached 19,000 bushels of wheat valued about $18,000. Besides this revenue they have all their other grains, livestock and garden produce.

In the Cardston district another story of wonderful success is revealed. In the Blood reserves, the Indians this year have raised about 250,000 bushels of wheat. Their crop has been conservatively valued at $350,000. The 1924 crop is bringing the Indians more prosperity than they have ever know before. Treaty money does not mean a great deal to them in comparison to the profitable income from their lands.

G. A. McNicholl and Reginald Beaumont, who are here on the C.N.R. business in connection with the winding up of the year, expect to return south to Vancouver on the Prince Rupert tomorrow morning.

LION HUNTER DIED: SHOT 258 ANIMALS

Went to South Africa Seventenn Years Ago to Rid Country of Beasts

CAPETOWN, Dec. 4.—"Yank" Allen, the terror of South African lions, has died here but only after he accounted for 258 of the beasts. Allen, who was a native of Texas, came to South Africa 17 years ago to rid the British South African Company's ranches of lions. So well did he do his work that for the last ten years lions in the company's district became about as abundant as bison on the American prairie, and he eventually cut himself out of a job. His bag of lions is a record, even for South Africa.

Allen's description of a lion was that it was nothing more than a big dog, and that it was safest not to open fire until the animal was within 20 yards of the gun.

MEN ARE MORE SHORT TEMPERED THAN WOMEN

Is it so, or is it not so? Some men naturally will dispute the statement, but these same men should recollect the times they have lost their tempers when they lit the fire in the morning and it went out, leaving them to do the whole thing over again.

Fortunately this trouble can easily be eliminated. Coal is being sold today which can be ignited from paper rolled into balls. A good fire is going in a few minutes and breakfast is ready in no time.

This coal is the famous Nanaimo-Wellington, sold only by Albert & McCaffery. Every pound of it double screened—no rock or shale, no slack and very little ash. It lasts longer, gives greater heat and better service. These are some of the reasons for so many repeat orders. Be one of the many wise people. Do as they do by ordering nothing but Nanaimo-Wellington coal. Prompt and civil service. Remember the phone numbers are 116 and 564.

QUARREL ON DOCTRINE WHEN WORLD IS SICK

Old Presbyterian Divines Rebuked by Young Man Entering Ministry

NEW YORK, Dec. 4. — (By Canadian Press). — A student, fresh from a theological seminary, an applicant for admission to the New York Presbytery of the Presbyterian Church, recently rebuked the members of the presbytery as they sat in session to consider his application. The cause of the rebuke was a revival of the dispute between the Fundamentalists an dthe Modernists, which arose when the applicant, Rev. C. G. Fuller, refused to affirm his belief in the Virgin birth.

The young minister had been questioned at length before the 100 members of the Presbytery. All the questioners were men well along in life, with years of service behind them. When Rev. Fuller refused to affirm his belief, these ministers quarrgled among themselves. When the dispute had been quieted he asked permission to speak. The Moderator, Dr. Howard Duffield, granted his request.

Rev. Fuller faced them squarely and spoke in a quiet voice.

"I want to confess to you men here that I am disappointed, "he said. "I came to this group to find you not imbued with the importance of the troubles of a sickening world but in controversy over doctrinal and ecclesiastical matters. It chilled something warm and fine within me.

"Young people everywhere are looking to men such as you for help; they are hungry for light and they are finding you involved in controversy. You are arguing about doctrine when there faces you the sores of the world to heal. I thank you."

Immediately he concluded, the young minister left. He was applauded and the Presbytery, going into executive session, accepted him by a vote of 69 to 23.

Clay Porter, who is in charge of development work on the Porter-Idaho mining property on the Marmot River, passed through on the steamer Prince Rupert yesterday afternoon returning north after a business trip to Vancouver and Victoria. The Porter-Idaho property is to be incorporated.
